HOUSE JOURNAL 1

Tuesday, 17 Nov 81

CALL OF THE SESSION

WHEREAS, the House of Representatives adjourned from the 1981 regular session sine die on September 28, 1981, and

WHEREAS, Section 39, Chapter 568 Session Laws of 1981 contemplated that the federal government would make certain block grants of funds available to the state and requires the General Court to specifically appropriate such funds before the Governor and Council or any State entity can expend said funds, and

WHEREAS, the federal government has made block grant funds available and requires the state to notify it in a timely manner if it decides to accept block grant funds, and

WHEREAS, the legislature has not taken affirmative action on five of the seven block grants, and

WHEREAS, the United States District Court for the District of New Hampshire has issued an order in the matter of Garrity v. Gallen compliance with which will require the appropriation and expenditure of funds in addition to those provided for in Chapter 568 Session Laws of 1981, and

WHEREAS, federal law requires that districts for elective office be reapportioned every 10 years to insure equal representation within districts and the legislature has not taken final action to reapportion said districts, and

WHEREAS, the impact of certain laws enacted during the 1981 regular session was not fully foreseen, requiring the enactment of corrective legislation, and

WHEREAS, three state agencies will terminate on March 31, 1982, under the provisions of RSA 17-H, absent action by the legislature, and

WHEREAS, changes in federal tax laws, interpretations of various provisions of the operating budget, and inadequate funding levels of some departments, have created the possibility of an imbalance between available revenue and authorized or required spending, and

WHEREAS, necessary budget reductions and adjustments can be accomplished only through legislative action, and

WHEREAS, prompt legislative action is required to provide for adequate cash flow into the State Treasury,

NOW, THEREFORE, because we deem that the welfare of the State so requires, by the powers vested in the Governor and Council by Article 50 Part Two of the Constitution of New Hampshire we hereby call the General Court into Session on Tuesday, November 17, 1981 at ten o'clock in the forenoon for the purpose of taking action on the matters enumerated above, and

We Further Resolve that the Secretary of State be, and he hereby is, authorized and directed to communicate this resolution to the President and the Speaker, and to each member of the General Court as soon as it is possible to do so.

The Clerk read the Call of the Special Session.

Prayer was offered by the House Chaplain, Rev. William L. Quirk.

Let us Pray:

Our Father in heaven, we thank You for Your care and for the many good things received through Your fatherly concern for all of us.

Help us to show our gratitude by having patience and understanding with one another, the generosity to share our joys and sorrows, the honesty to admit our faults and the strength to correct them.

We entrust this day and the days ahead to Your protection and ask that we grow in Your wisdom and grace so that we may act with justice and charity. Amen.

Rep. Armstrong led the Pledge of Allegiance.

SENATE MESSAGE

The Honorable Senate has assembled and is now ready to proceed with the business of the 1981-1982 Special Session and is ready to meet with the House of Representatives in Joint Convention for the purpose of receiving his Excellency, the Governor.

JOINT CONVENTION (Speaker presiding)

The Speaker introduced Governor Hugh J. Gallen.

Honorable Members of the General Court: It has been more than four years since the members of the House and Senate last assembled in this historic building to begin a Special Session of the New Hampshire Legislature. In that interval much has happened and much has changed.

We have passed three state operating budgets, three capital budgets and more than 1,100 new laws.

We have had two statewide elections and you assemble today with a different Governor, Senate President and House Speaker than when you last began a Special Session in the Summer of 1977.

It might also appear that some things remain the same. The last special session was called because the state entered a

biennium without an operating budget in place. This special session convenes largely in response to the budget problems now facing New Hampshire. There, however, the similarity ends, because we are now witnessing fundamental changes in the nature of budget issues and in the role of government. The success of this special session, the success of the next regular session and ultimately, the success of our collective ability to lead New Hampshire through a period clouded with economic uncertainty, will be measured by our capacity to deal with these fundamental changes.

I will devote most of my remarks to these changes, and to both the short term and long term budget problems and issues facing state government. But as you know, there are some non-budget issues which are on the agenda for this special session. And so, I would like first to briefly outline for you my positions on those matters.

First, you have before you various bills to correct errors or oversights of legislation passed during the regular session. I urge you to look carefully at the effect of the original law which you enacted, the changes which would result from the amendments which will now be brought before you, and then enact what you believe to be the best policy for the state of New Hampshire. I will support those efforts.

In particular, among these items, I urge you to move quickly to restore the eminent domain powers of the Public Utilities Commission which were inadvertently removed as part of sunset review of the Eminent Domain Commission. I know that your presiding officers join me in making this urgent request.

Second, you must finalize in the coming weeks bills which will redraw lines for the House and Senate, Executive Council and Congressional Districts. On this issue my position is very simple: if the bills which are ultimately presented to me can be demonstrated to be free of any hidden agenda to either help or hurt some particular area, or constituency, or individual, or party, and if they are the product of a determined bi-partisan effort to structure districts in line with constitutional requirements, then they will unquestionably receive my support.

Third, you must resolve the fate of three state agencies which are scheduled for termination under the sunset law on March 31, 1982. Each of these agencies -- the Liquor Commission, the Nursing Board and the Real Estate Commission -- failed to win renewal during the regular session because of various political issues which were for the most part unrelated to their operation. It is time to put politics aside. It is time to seek out compromise. I have tried to do this with your leadership on the Liquor Commission, and I believe that we are very close to achieving a compromise. I hope you will do the same with the other two agencies, so that bills renewing all three will reach my desk at an early date.

And finally, I will be asking for your cooperation and support in revising our laws dealing with the criminally insane. We must write legislation that more fully protects the public while withstanding constitutional challenges.

All of these non-budget issues are important. But I think we can all agree that most of our time and attention during the coming weeks will be devoted to issues relating to the state operating budget. You will be presented today with two budget-related bills upon which I urge you to take immediate and favorable action.

When you met in recall session last September, you postponed action on most of the block grants which are available to the state. Since that recall day, your committees have held hearings to review the plans of relevant state agencies for the administration and expenditure of these grants. Today you will be asked to accept all but one of the available block grants. Today you will be asked to approve these grants, I urge you to do so, so that the various departments of the Executive Branch can begin processing the necessary paperwork so that these grants can be accepted by the December 1st deadline, and can be expended beginning January 1st.

Second, you will also be asked to approve legislation increasing, for the remainder of this biennium, the state's short-term borrowing ceiling. I am sure you are all aware that some payments to local communities have been delayed because the Treasurer has simply not had the necessary cash flow to back up those payments. Obviously, the deficit position in which the state began this biennium is the cause of this problem. But the problem also highlights other important issues which I believe must be addressed.

When the debt ceiling was last increased, a decade ago, the 40 million dollar limit represented about 40 percent of the annual general fund cash flow. The 60 million dollar ceiling, which you will hopefully approve today, will represent only about 20 percent of our current annual general fund cash flow. But as the size of the budget, the size of our cash flow, the size of our various disbursements to local communities have all grown in the last decade, the state's methods of managing that cash flow have not changed.

The Governor's Management Review, which is now completing its work and which will report to all of us early next year, is looking at the state's cash management policies. As an interim measure, I have issued an Executive Order to speed the flow of revenue into the Treasury. And even after you approve the debt ceiling today, I urge you to continue to look at this issue and to work with us in the Executive Branch, and ultimately with the recommendations of the Management Review, to improve the financial management of the state.

This is important, not only because improved financial management means additional revenue to the state from interest on deposits, but also because it will be imperative that we have sophisticated and modern management systems in place if we are going to successfully deal with the many changes of the new era which is now upon us. Very simple, we are obligated to squeeze everything we can out of every available dollar.

After you conclude work on these immediate agenda items, it is my

understanding that you will recess until early next year. At that time, you will begin to make the hard and painful decisions which an era of fundamental change in government requires. I want to outline for you today the approach which my Administration will take in preparing specific recommendations to deal with the immediate budget problems and the longer-term financial issues which state government faces. A rational strategy for dealing with all of these issues requires, at the outset, an understanding of how state government came to its present condition.

Simply stated, New Hampshire has been living beyond its means for quite a long, long period of time. Over that period, successive governors and legislatures have used, one by one, most of the available short-term solutions to maintain the appearance of a state living within its available revenue. The obvious hazards of this approach have been compounded by a growing dependence on a single revenue source which is highly responsive to national economic trends, which are obviously beyond our control. Demands for spending in some areas are accelerated by the very economic trends which depress revenue. And the inadequate systems for day-to-day financial management which I have already mentioned weaken what little control we have over the "boom or bust" relationship between the national economy and the state budget.

In the 14-year period from Fiscal Year 1968 through 1981, State government spent more than it received in general fund revenue in nine different years. That time-span covers the administrations of five House Speakers, six Senate Presidents, and four Governors of both major parties and a wide range of philosophies.

This record would have been even worse, had it not been for the fact that in some years general fund revenues exceeded projections. For instance, in 1979, Business Profits Tax revenues were 50 percent above the projection which the Legislature and Governor had agreed on in passing the budget for that year. Had it not been for such unforeseen good fortune, New Hampshire would have spent more than it received in even more years than nine of the last 14.

Why is it, then, that New Hampshire has not been rolling in deficits for most of the last decade and a half? I have already touched on one of the reasons -- the fact that we were the recipients of occasional unforeseen revenue bonuses. In addition, we started this whole period with a slight surplus. Also, early in the last decade the state began to receive annual allotments of federal revenue sharing funds. We treated this money as if it were a regular general fund revenue, even though we had no control in it.

All of these things helped close the annual gap, helped preserve the image of a state living within its means, while year after year actual expenditures exceeded actual general fund receipts.

Now, the illusion of the last decade and a half has been broken. The collapse of the national economy rippled through the state system, in the last biennium, depressing

revenue projections while at the same time increasing demands for services. Revenue sharing for the states was abruptly terminated. And, frankly, we all shared in some poor luck. Certainly, few of us could have anticipated two virtually snowless winters, a summer of gas line panics and the burning of a five million dollar revenue source -- all within a single biennium.

On top of all of this, New Hampshire's political system did not respond as well as it should. In your recall session in the spring of 1980, I proposed, and your leadership, as a courtesy to the Executive Branch, sponsored legislation which would have reduced state spending for the second year of the biennium. Had that legislation been adopted, savings would have been generated to offset much of the Fiscal 81 deficit, and we would have then had a reasonable chance at making further reductions early in the last regular session and ending the biennium on balance.

Unfortunately, the bill was not passed. In its place, some minimal reductions were ordered by the Advisory Budget Control Committee. But by the time the Legislature next convened in January of this year, the problem had grown to such a dimension that you rightly determined that it was simply not possible to reduce the budget sufficiently to eliminate the deficit in the short time remaining in that fiscal year.

Thus, we entered this biennium with a deficit. Some would say that the 1982-83 budget both eliminates that deficit and restores fiscal stability, by bringing annual revenue above annual expenditures by the end of this biennium. They would contend that our problems are solved. That contention is simply false. It is based upon three assumptions, all of which are invalid.

First, it assumes that revenue projections are correct. There are two immediate problems in this area. In my budget address last February, I warned of the need to take action to offset a decline in Business Profits Tax revenue because of the impact of federal tax law changes. Those federal changes are now in effect and as businesses take advantage of accelerated depreciation allowances, and thus reduce their taxable income, our tax revenue will also be reduced.

It is admittedly difficult to say with certainty exactly what the impact of this will be, because we cannot know for certain how rapidly, or to what extent, businesses will take advantage of the new federal tax law. Indeed, the clear fact that the economy is not recovering as predicted means that capital investment is not being made, and thus there is no new depreciation to be taken.

But, the fact that the immediate impact of that change may be less than we had anticipated, does not alter the reality that there will be an impact, and it will be negative. To offset that, I am asking that you pass hold-harmless language which will insulate our Business Profits Tax from the accelerated depreciation allowance at the federal level. In simple terms, this amendment to our tax law will allow businesses the full benefit of previous

depreciation deductions, but not allow -- for state tax purposes only -- accelerated depreciation. It will not produce additional revenue for the state. It will not deprive any business of the new benefits of the Reagan tax cut on their federal return. It will not mean that any business will have to pay New Hampshire more than they would have prior to those tax law changes. I urge you to pass this hold-harmless amendment at the earliest possible date.

Unfortunately, there are other problems on the revenue side. In particular, in order to balance the budget, you enacted a \$250 minimum Business Profits Tax. This tax is an attack on small business. It is bad tax policy and it is of dubious constitutionality. It may well be challenged in Court, and we must recognize now the great likelihood that such a challenge may well succeed.

The second false assumption in the current budget is that the particular relationship between how much money we appropriated, and how much money departments will actually spend, will be similar to that of the last 15 years. Throughout that period, actual spending has been, on average, 4.1 percent less than total appropriations. With the exception of the budget of the Legislative branch and a limited number of other areas, these unspent funds lapse at the end of each fiscal year.

This budget, as other budgets before it, anticipates that lapse. It anticipates that a percentage of the total money appropriated -- the figure this time is three percent -- won't be spent. The budget is balanced against anticipated spending, but not against the higher level of total appropriations.

Based upon past experience, it might seem that the assumption is valid. But the rules of the game have changed. The principal reason for those lapses in the past has been the fact that state law placed various restrictions on the transfer of funds from one budget line item to another. For instance, if a department had extra money in its personnel account because a position was vacant for a period of time, it could not move that money to some other line or spend it for some other purpose. The extra money stayed in the personnel line, and lapsed at the end of the year. But as you well know, the current budget removes all such restrictions on transfers.

The budget estimates that nearly 18 million general fund dollars will be appropriated but not spent in this biennium. By removing restrictions on transfers, you have ensured that most of that money will, in fact, be spent. But there is no revenue to support that spending. To offset this, all transfer restrictions should be re-imposed. But at a minimum, I urge you to approve a freeze on state hiring and prohibit transfers from personnel accounts, at least until final decisions on the budget are made in January. I know that this proposal will be resisted because of the political commitment to the so-called management concept. But I ask you to keep in mind that when we strip away the rhetoric, you find that the commitment to the so-called management

concept is a practical commitment to spending, beyond revenue, -- deficit spending -- of as much as 18 million dollars.

The third assumption of the current budget is that it is a complete budget, that no additional demands for spending will be made, or that any that are made will not be legitimate and need not be honored. And that, as we all know, is also false. Whether it is the Laconia State School, the operation of the Liquor Commission, the state employees pay raise, the maintenance of state armories, or anything else, there are a host of demands which come in this room, and in most cases a majority in this room, believe are legitimate and believe must be met. But like the phoney lapse figure, every one of those demands is -- at this moment -- an expenditure not backed by revenue.

This is the short-term problem which we face, and which we must resolve before the end of this special session.

I will outline, this morning, my priorities for funding and the approach which I will be taking in the next several weeks to generate sufficient funds for those priorities. But beyond that, I also want to speak about the long-term problem facing New Hampshire, a problem which is ultimately far more serious than the money for immediate demands.

Of the many requests for supplemental appropriations which will come before you in the next several weeks, none is more important, none is more consistent with the fundamental purpose and obligation of government, that the nearly 15 million dollar request which you will receive to fund our program for the Laconia State School. Sometime in January, you will pass legislation making various amendments to the state operating budget. If that legislation does not meet this need, it will be vetoed. I will take that action, not because failure to enact this program would ignore a legal obligation which we are now under, but rather because such a failure would renounce a moral obligation which the state has ignored for far too long.

The other significant areas which I recommend for additional funding are as follows: funds are needed to meet our commitment, keep our word, and provide for the balance of our contractual obligation with the state employees. We obviously need to continue the operation of the State Liquor Commission and its stores. It would be foolish to cripple the ability of this agency to continue to raise revenue which is so badly needed in so many other areas. Funds are needed to meet obligations at the State Prison. We must provide sufficient money to the State Treasurer to meet the increased cost of borrowing, a cost which has been brought about by the lengthy period of devastatingly high interest rates, which affect the state as much as they affect businesses or individuals. I also favor funding a limited number of, relatively speaking, small requests. Two in particular that have already been brought to the attention of the Fiscal Committee are the reclassification of positions at the Youth Development Center, and the maintenance of state armories.

While these items alone represent more than 40 million dollars in additional general fund spending, I am sure that they are by no means the only requests which will be brought to you or to me in the coming weeks. I believe that these are the ones that are most important. In fact, these are the ones that are more important than some of the things which we are doing and paying for now.

Outlining a list of priorities is easy. The hard task is finding the money to fund those priorities. First, let me indicate the solutions which are unacceptable. No one in this room, and no one in this state can be unaware of my commitment to the people on the issue of a sales or income tax. And no one in this room, and no one in this state should think, even for a moment, that I would fail to honor that commitment. But short of a sales or income tax, you will almost certainly be presented with a variety of other revenue proposals. I want to speak to a particular kind of tax proposal, and then make a more general comment on the possibility of increased revenue being a part of our solution to New Hampshire's short-term problems.

Without question, some of the tax proposals which will be brought up during this special session would increase state taxes on the business community. In the last session, the Business Profits Tax was changed in a variety of ways that are projected to extract more than 41 million dollars from New Hampshire's business community during this biennium.

Much is changing in the taxation of business at both the state and national levels. Part of our long-term activity must be the sorting out of the real impact of all of these changes. For example, once all of the provisions of the federal tax cut fully take effect, the taxable income of most businesses will be cut to such a degree, that the higher business profits tax rate enacted earlier this year will produce less revenue, and a smaller tax liability for any given business, than the old eight percent rate under the old federal law. But these federal changes have not yet taken hold. Instead, businesses are suffering through a deepening recession. And whatever the future may hold, the immediate reality of 41 million dollars in new business taxes cannot be denied.

Accordingly, I reject any and all business tax increases as a means to solving our short-term problem. I reject all of those which were before you during the regular session including the one percent gross profits tax which I proposed, as well as any new business tax proposals which some well-intentioned person might dream up in the coming weeks.

We must evaluate the full impact of the various federal tax changes, because in truth, they may provide a tremendous windfall for the business community. After that evaluation, we must adopt a sensible business tax policy, rather than simply considering more business taxes. But until that long-term effect is complete it is time to say, to businesses large and small across our state, enough is enough.

There will be other non-business tax proposals which will assuredly come before you. Faced with the painful choice of cutting programs, the option of quickly resorting to new revenue will seem extremely appealing. But before you leap to that option, I ask you to consider two facts.

One is that while many of you in this room undoubtedly believe that we have already cut programs too much, I would suspect that you could also identify some department, some agency, some program which you believe is not essential, which you believe could be cut. I believe that the people of New Hampshire share that sentiment.

The other is that during the regular session you increased general fund revenue for this biennium -- from changes in distributions between the state and municipalities, from increases in existing taxes and from new taxes -- by more than 98 million dollars. How can we possibly entertain the prospect of adding even more, when we can all still identify additional areas for budget reductions? I say to you that we simply cannot ask the people of this state to dig even deeper into their pockets until we have conclusively demonstrated that government is truly doing only those things which are essential, and doing them as efficiently as it possibly can. And Senators and Representatives, I say to you that through 15 years of living beyond our means, this state government has not demonstrated that case to its people.

Beginning tomorrow, my office will be meeting with representatives of many of the various interest groups which work with various state departments. We will be asking their advice on what aspects of departmental programs are inefficient, or are non-essential. We will also be consulting with department heads to determine their program priorities. We will be developing a series of proposed budget reductions to be presented to you and your committees by the time you return in January to begin addressing in earnest our short-term problems.

These proposals will be sufficient to fund the priorities which I have listed for you today. The goal of this effort will not be to simply slash numbers from a budget sheet. It will be to look at the program which those numbers symbolize, and to identify those which I believe to be of less importance than my priorities.

As these proposals emerge during the next several days and weeks they will, I am sure, encounter stiff resistance.

There is not a single state program which does not have some kind of constituency. For too long state government has responded to these constituencies. Now, we must evaluate the claims of those constituencies, and where the claims are weak, they must be rejected. Weak claims for state funding must be rejected even if they come from powerful constituencies. The proposals which I will make during the coming weeks would produce a state government which will do less; but which will do a better job at those things which it continues to do. And, make no mistake, my proposals will yield a state government

that will do its work with less state employees. And employee reductions will come not just from the lowest labor grades, but from every level.

I am prepared to take the criticism of the various constituencies because I am convinced that only by taking this course, only by squeezing out all of the excess of state government, only by shaping a government that does fewer things but does them better, only by demonstrating that we have not a government with a management concept, but a government of managers, can we both resolve our immediate short-term budget problems and prepare ourselves to deal with the long-term issues which lie ahead.

There are two such long-term issues which stand out above all others. First, the role of the national government is undergoing a fundamental redefinition. The federal government is consciously deciding that there are many areas in which it has been involved, which now should be left to the states. In many cases, that decision at the federal level will mean that a particular activity simply will not be done by government at all. But in many other cases, the decision will be not that an activity should no longer be pursued, but rather that it should be pursued by a different level of government. And in most of those cases, that different level of government will be the states.

At the same time, the federal government is consciously deciding to sharply reduce the exercise of its power to tax. I am in fundamental disagreement with the manner in which this decision has been implemented. The various provisions of the federal tax law changes will provide enormous benefits to the wealthy, and will provide benefits to big business that ultimately will far exceed a level which could be justified.

Budget Director Stockman was absolutely correct when he said that the Kemp-Roth supply side tax cut "was always a trojan horse to bring down the top rate" of federal tax. The business tax cut in its final version includes a wide range of special deductions and credits designed to give multi-million and billion dollar bonuses to select groups in the business community. Relief for the wealthy. Bonuses for the corporate giants who can't afford new capital investment, but who can quickly generate billions of dollars to buy and sell one another. This new federal tax policy I believe is unjustified.

But beyond that, the decision of the federal government to sharply reduce its exercise of the power to tax will have a devastating impact on the states. All across this country, states have one or more taxes which in effect piggyback on their federal counterparts. Thus, a federal policy of reduced tax liability affects state revenues as well. The one small area of accelerated depreciation has received considerable attention in the last several months. But is only the beginning of a general erosion of state revenue in the corporate and estate tax areas which will occur over the next five years. This fact, coupled with the transfer of responsibilities

to the states means that over the long-term we here in New Hampshire must develop our own coherent tax policy.

The second long-term issue leads to the same conclusion. This issue is the fact that we have a long-term revenue problem in New Hampshire. Had it not been for the introduction of the Business Profits Tax, state revenue growth in the last 15 years would not have kept pace with inflation and population growth in New Hampshire. In addition, the tendency to resolve immediate budget problems by minor adjustments to existing taxes have, over time, obscured any coherent policy which might have once existed. Nowhere is this more evident than in the passage of the minimum business profits tax -- a tax which has no basis in equity, no basis in responsiveness to federal changes, and in all likelihood, no basis in the constitution.

Once the short-term issues are resolved, once we have demonstrated that we are capable of making the decisions which squeeze out the excess in state government, and once we have had time to fully assess the rapidly changing federal-state relationship, then we must turn to the issue of tax policy and tax reform. To do that, to respond to these long-term issues, we must be willing to move beyond the code words which currently afflict any discussion of revenues in New Hampshire. If a public figure stands up and says we need to talk about tax policy or that the state has a revenue problem, then his or her opponents immediately rush to the barricades and proclaim that that individual now worships at the altar of broad-based tax. Well, that is not true. The reliance on code words has meant, and continues to mean, that in many areas of taxation other than a sales or income tax which cry out for reform -- and which, in light of the federal government's actions, now must be reformed -- discussion cannot even occur, much less action take place.

Let us set aside those code words, so that we can discuss and pursue the goals of tax reform in those areas that cry out for it. Let us set aside the fear that the very discussion of tax reform indicates some hidden and preconceived plan.

Let us set aside the past practice of ignoring the profound impact of what is happening in Washington, instead of seeking to understand its effect upon the states. And let us set aside the habit of refusing to make the hard decisions to make state government do fewer things, of trying instead to continue to do everything and as a result doing nothing well.

If we do not set these things aside, then we most assuredly will wind up with a sales or an income tax -- not as a vehicle of reform, but as simply one more burden added to the heap of hodge podge taxes already imposed on our citizens.

In these times when the federal government is making these fundamental changes in policy so hastily, let us make whatever immediate changes are necessary to respond on the state level. But let us not be rushed into fundamental changes ourselves. Long-term change requires

careful long-range planning, not knee-jerk reaction.

When the national recession burdens us with depressed revenues and increased demands for services, let us remember that the national economy also burdens our citizens, who expect us to be willing to make the same difficult decisions they must make every day. They are being forced to make do with less; so must state government. They can no longer afford to do everything they wish to do; neither can state government.

This will not be an easy session. Difficult choices which were postponed last June can be postponed no longer. If the collective will of state government should fail now, then we will have a budget that will be further and further out of balance; we will have legitimate needs which will go unmet, and illegitimate ones which will continue to be funded; we will be ill-prepared to either understand or respond to the realities of the "New Federalism"; and we will all see the consequences of that failure of will. We will see it in the declining quality of services which we deliver. We will see it on the budget balance sheet. We will see it in our bond rating. And ultimately, we will see it in a loss of confidence in all of us from the voters who gave us the responsibility to lead and to serve.

We are all politicians, and before the next election there will be ample time for political and partisan debate on budget issues. But if we allow the common work which we must now undertake to immediately be obscured by politics, then almost assuredly, we will fail. I neither ask, nor expect every proposal which I have made today, or every one of the many budget reductions which I will propose in the next several weeks to receive your endorsement. But I do ask and expect all of us to recognize that we are now about a common business, and that the common interest of the state must outweigh our individual political interest. I pledge to you an open door, and an open mind to the thoughts and the suggestions and the proposals of friend and foe alike. I ask you to make a similar commitment, and I wish you well.

Thank you very much.

The Joint Convention arose.

INTRODUCTION OF GUESTS

Eighth grade students from Keene Junior High School, Oran Barber and Mark Somerset, guests of Rep. Barber; Mr. Neal Werth and Gayle Ann Gauvin, guest and daughter of Rep. Gauvin; Harrison Workman of Portsmouth, guest of Rep. John Hynes.

RESIGNATIONS

John B. Tucker
Speaker

Dear Mr. Speaker:

This will serve as my official resignation from the New Hampshire General Court effective immediately.

As you know, I entered the University of Tulsa College of Law this semester which makes it impossible for me to participate as a state legislator as I should. I apologize for not having resigned before the November elections. Hopefully an interim election can be held soon so that District 7 of Strafford County can be represented in the General Court.

I have been reading in the Manchester Union Leader that a special session of the legislature has been called by the Governor and Executive Council for November 17 to deal with the federal block grants and the budget. I hope that the revenue situation will be finally resolved in this session.

I look forward to seeing you when I am in New Hampshire for the holidays.

Rep. Richard D. Morrisette
Strafford District 7

John B. Tucker
Speaker

Dear Mr. Speaker:

After considerable thought and reflection, I have decided to announce my resignation as a member of the New Hampshire House, effective immediately.

I do so for personal reasons and a desire to make a career change in the near future.

I would like to express my gratitude to you for your friendship and support over these past few years. I have enjoyed working with you even in these difficult times.

Please express my thanks and admiration to each and every member of the House. I consider myself fortunate to have had the opportunity to work with so many fine individuals on both sides of the aisle. New Hampshire is well served by their dedication and hard work.

Best of luck to all in the years to come.

Sincerely,
Rep. Michael C. Hanson
Belknap District 5

All appropriations based upon the budget to be paid from taxes or revenues shall be incorporated in a single bill which shall be called the general appropriation bill and which shall contain only items of appropriation. HB 19, relative to the escrow account for court facility improvements and amending the recodification of the business corporation act. Ought to Pass with Amendment.

The first part of this bill authorizes investment of funds from the court facility improvement escrow account. The higher rate of interest available on such investments will increase local and county revenues by about \$16,000 in 1982. The second part of the bill makes a technical change in the recodification of the corporate statutes passed during

the regular session, but not effective until February of 1982. The amendment makes provisions for a smooth transition from the old to the new law. Vote 14-0 Rep. Donna P. Sytek for Judiciary.

Amendment

Amend the bill by striking out section 4 and inserting in place thereof the following:

4 Business Corporation Act Transition Provisions. Amend RSA 293-A by inserting after section 156 the following new subdivision:

Transition Provisions

293-A:157 Definitions. As used in this subdivision, unless the context otherwise requires:

- I. "Effective date" shall mean February 1, 1982;
- II. "New law" shall mean RSA 293-A as inserted by 1981, 557, effective February 1, 1982;
- III. "Prior law" shall mean RSA 294 relative to business corporations, RSA 297 relative to voting trusts, RSA 298 relative to suits against stockholders, and RSA 300 relative to foreign corporations, as in effect prior to February 1, 1982.

293-A:158 Application of New Law; Date; Contracts and Corporations; Vote or Consent of Directors or Shareholders Prior to Effective Date.

I. Except as otherwise expressly provided in RSA 293-A:157-170, the provisions of the new law apply on and after the effective date to all corporations referred to in RSA 293-A:2, VII existing on the effective date and to all actions taken by directors or shareholders of such corporations on or after the effective date.

II. Except as otherwise expressly provided in RSA 293-A:157-170, all of the sections of the new law governing acts, contracts, or other transactions by a corporation or its directors or shareholders apply only to such acts, contracts, or transactions occurring on or after the effective date, and the prior law governs such acts, contracts, or transactions occurring prior to the effective date.

III. Except as otherwise expressly provided in RSA 293-A:157-170, any vote or consent by the directors or shareholders of a corporation prior to the effective date in accordance with the prior law shall be effective in accordance with the prior law, and if any certificate or document is required to be filed in any public office of this state relating to such vote or consent, it may be filed in accordance with the prior law.

293-A:159 Powers of Corporations Existing on February 1, 1982. The provisions of RSA 293-A:4 of the new law apply to corporations existing on the effective date, and any statement in the articles of such corporation relating to the powers of the corporation shall not be construed as a limitation unless it is expressly stated as such.

293-A:160 Officers of Corporations. The provisions of RSA 293-A:50 of the new law do not apply to corporations existing on the effective date until the next regular meeting of the board of directors or of the shareholders following the effective date and at which the votes necessary to achieve compliance with that section may be adopted. Prior to such meeting, the "clerk" of any corporation existing on the effective date shall be deemed to be the "secretary" for all purposes of the new law.

293-A:161 Indemnification by Corporation. The provisions of RSA 293-A:5 of the new law govern any proposed indemnification by a corporation after the effective date, whether the events upon which the indemnification is based occurred before or after the effective date. Any statement relating to indemnification contained in the articles or bylaws of a corporation on the effective date shall not be construed as limiting the indemnification permitted by RSA 293-A:5, unless it is expressly so stated.

293-A:162 Dividends and Reacquisition of Shares. The provisions of RSA 293-A:6, RSA 293-A:45, RSA 293-A:46 and RSA 293-A:66 of the new law apply to any distribution to its shareholders made after the effective date by a corporation existing on the effective date, except that any such distribution effected pursuant to a contract for the purchase or redemption of shares entered into by a corporation prior to the effective date, or pursuant to a vote taken prior to the effective date effecting a redemption of redeemable shares or declaring a dividend or distributing capital surplus, may be made if permissible under either the new law or under the prior law in effect at the time the contract was entered into or the vote was taken.

293-A:163 Shareholders Meetings and Consents and Voting of Shares; Directors Meetings, Quorum. The provisions of RSA 293-A:28-33, RSA 293-A:35-44, and RSA 293-A:151 of the new law apply to any meeting of shareholders or directors held after the effective date, any action of shareholders or directors pursuant to written consent which becomes effective after the effective date, and to any vote cast at such a meeting or consent given for such action (whether or not a proxy or consent was executed by the shareholder or director prior to the effective date); provided, however, that the prior law shall apply to any meeting of shareholders or directors and to any vote cast at such meeting if such meeting was initially called for a date prior to the effective date and notice of such meeting was given to shareholders or directors entitled to vote at such meeting.

293-A:164 Agreements and Voting Trusts. RSA 293-A:34 of the new law applies to agreements and voting trusts entered into after the effective date and RSA 297 as repealed by the new law governs such agreements or trusts entered into prior to the effective date unless the agreement or trust is amended or extended after the effective date, in which event the new law applies.

293-A:165 Shareholder Derivative Action. The provisions of RSA 293-A:49 of the new law apply to actions commenced after the effective date and prior law governs actions pending on the effective date.

293-A:166 Mergers, Consolidations, Share Exchange, Sale of Assets and Rights of Dissenting Shareholders. The provisions of RSA 293-A:71-78 (dealing with mergers, consolidations and share exchanges), RSA 293-A:79-80 (dealing with sales of assets) and RSA 293-A:81-82 (dealing with dissenters' rights) of the new law apply to transactions consummated after the effective date, unless a required approval of the shareholders has been given prior to the effective date, or has been given after the effective date but at a meeting of shareholders initially called for a date prior to the effective date, in which case the transaction shall be governed by the prior law.

293-A:167 Involuntary Dissolutions. The provisions of RSA 293-A:95-106 of the new law (governing involuntary dissolutions) apply to actions for involuntary dissolution commenced after the effective date, but the prior law governs any action pending on the effective date.

293-A:168 Voluntary Dissolution. The provisions of RSA 293-A:83-94 of the new law (governing voluntary dissolutions) apply to any voluntary dissolution proceeding initiated by the filing of an election after the effective date, but the prior law governs any such proceeding initiated prior to the effective date.

293-A:169 Statements on Share Certificates Regarding Rights. The provisions of RSA 293-A:23 of the new law relating to required statements on certificates representing shares apply to certificates representing shares of corporations existing on the effective date only if the certificates are issued after the effective date.

293-A:170 Articles of Incorporation; Contents; Application of New Law to Corporations Existing on February 1, 1982; Amendment of Articles. The provisions of RSA 293-A:54, relating to the contents of articles of incorporation, shall apply to corporations existing on the effective date, but such corporations shall not be required to amend their articles to comply with RSA 293-A:54, I(i), (j) and (k); and shall not be required to amend their articles of incorporation otherwise to comply with RSA 293-A:54 until 15 months after the effective date.

HB 21, relative to school bus registration fees and permits for OHRV racing meets. Ought to Pass with Amendment.

It sets out SAE approved test procedures for sound levels while maintaining the current decibel limit until further study by the OHRV Commission; and it directs the Executive Director or any of his agents to collect a fee of \$1.00 in addition to the regular OHRV registration fee. COMMITTEE REPORTS (Regular Calendar)

HB 25-FN, establishing a committee to study health insurance for state employees and making an appropriation therefor. Inexpedient to Legislate.

This bill is not of an emergency nature. Because of the importance of proper health coverage for state employees, and the proper administration of such program, the subject should be considered carefully by a legislative policy committee. The rules of the House do not permit the Committee on Appropriations to report out a bill with the recommendation to refer to interim study.

Accordingly, the committee recommends inexpedient to legislate and will move further that HB 25 be referred to interim study. Unanimous vote of committee. Rep. William F. Kidder for Appropriations.

Rep. Wiviott moved that the words, Refer for Interim Study, be substituted for the Committee Report, Inexpedient to Legislate, spoke to his motion and yielded to questions.

Rep. Scamman spoke in favor of the motion.

Adopted.

HB 25 was referred for Interim Study.

HB 28-FN, relative to the opening of a liquor store in Laconia and making an appropriation therefor. Ought to Pass.

Vote 18-0. Rep. Edward J. Wojnowski for Executive Departments and Administration.

Amend RSA 331-A:4, I as inserted by section 4 of the bill by striking out same and inserting in place thereof the following:

The commission may, upon complaint or upon its own motion, after reasonable notice of the charges in writing and a hearing thereon, revoke the license of any broker or salesman, or suspend such license for such period as may be just upon finding that such licensee has been guilty of any unlawful, dishonest, deceitful or fraudulent conduct in connection with any real estate transaction conducted by a licensed real estate broker or salesman whether acting as a broker or principal, or of any prohibited act contained in RSA 331-A:6-b.

II. The commission shall give the licensee at least 14 days' written notice, prior to the date of hearing, of the charges to be heard by it, and shall afford such licensee an opportunity to be heard in person or by counsel in reference thereto. The hearings on such charges shall be at such time and place as the commission shall prescribe.

The commission is authorized to charge the broker or salesman a reasonable fee for any copies of said transcript furnished him. Sheriffs and witnesses shall receive the same fees for the service of process and attendance before the commission as are paid sheriffs and witnesses in matters pending before the superior court.

IV. The decisions of the commission shall be reached in a timely manner and shall be in writing and officially signed by the members. The original of such decisions, when so signed, shall be filed in the office of the commission and copies thereof shall be mailed to the broker or salesman, addressed to his place of business, and to the complainant, if any, within 2 days after filing thereof.

An appeal shall suspend the commission's decision. The appeal shall be tried in the superior court de novo without jury. The superior court may affirm, reverse, or modify the commission's decision, as justice may require.

Amend the bill by striking out section 12 and inserting in place thereof the following:

12 Appropriation for Computer System. The sum of \$35,000 is hereby appropriated to the real estate commission for the purpose of converting to a computerized records system which shall include, but not be limited to:

- (1) a master list of all licensees;
- (2) a list by license types indicating the status of the licensees;
- (3) renewal data; and
- (4) currency data.

The commission shall make such conversion by January of 1984. The governor is authorized to draw his warrant for said sum out of any money in the treasury not otherwise appropriated.

not drive on any ways of the state for a
period of not less than 60 days, and, in
either situation at the discretion of the
court, this revocation of a driver's license
or driving privilege and revocation of
driving privileges of an out of state driver
may be extended for a period not to exceed 2
years. Upon conviction based on a complaint
which alleges that the person has had one or
more prior convictions in this state or
another state and said prior conviction or
convictions are proven and said prior
conviction or convictions were within the 7
years preceding the date of the second or
subsequent offense, such person shall be
guilty of a misdemeanor and shall be
sentenced to imprisonment for a period of
not less than 7 consecutive 24 hour periods
to be served within 6 months of the
conviction and fined not more than \$1,000.
Further, the driving privilege or driver's
license of a person who had one prior
conviction within the 7 year period shall be
revoked and he shall be ineligible for a
license for the next 3 calendar years, and
if the person is an out of state driver, his
privilege to drive in the state shall be
suspended for the next 3 calendar years.
The driving privilege or driver's license of
a person who had 2 or more prior convictions
within the 7 year period shall be revoked
indefinitely and he shall be ineligible for
a license for at least the next 3 calendar
years, and if the person is an out of state
driver, his privilege to drive in the state
shall be suspended indefinitely, for at
least the next 3 calendar years. No portion
of the minimum mandatory sentence of

imprisonment and no portion of the mandatory
sentence of the period of revocation shall
be suspended by the court. No case brought
to enforce this section shall be continued
for sentencing for longer than 35 days. No
person serving the minimum mandatory
sentence under this paragraph shall be
discharged pursuant to authority granted
under RSA 651:18, released pursuant to
authority granted under RSA 651:19, or in
any manner, except as provided in RSA 623:1,
prevented from serving the full amount of
such minimum mandatory sentence under any
authority granted by Title LXII or any other
provision of law.

2 Determination of Earliest Parole
Eligibility Date. Amend RSA 651:2 by
inserting after paragraph II-d the following
new paragraph:

II-e. To the minimum sentence of
every person who is sentenced to
imprisonment for a maximum of more than one
year shall be added a disciplinary period
equal to 150 days for each year of the
minimum term of his sentence, to be prorated
for any part of the year. The presiding
justice shall certify, at the time of
sentencing, the minimum term of the sentence
and the additional disciplinary period
required under this paragraph. This
additional disciplinary period may be
reduced for good conduct as provided in RSA
651:55-b. There shall be no addition to the
sentence under this section for the period
of pre-trial confinement for which credit
against the sentence is awarded pursuant to
RSA 651:55-c.

3 Reference Added. Amend RSA 651:20
(supp) as inserted by 1971, 518:1 as amended
by striking out said section and inserting
in place thereof the following:

651:20 Incarceration Under Suspended
Sentence. Notwithstanding any other
provision of law, the sentence to
imprisonment of any person may be suspended,
at the time of sentence unless otherwise
ordered by the court, or at any time while
any part of the sentence remains unserved,
but a petition to suspend sentence may not
be brought less than 2 years after
commencement of said sentence nor more
frequently than every 2 years thereafter.
He may be required to report to the
institution to which he has been sentenced
to be incarcerated during weekends or at
such times or intervals of time as the court
may direct. Time so spent in said
institution shall be deducted from the
maximum term, and where there are both a
minimum term and maximum term, from both.
Any part of a day spent in the institution
shall count as a full day toward the
sentence.

4 Terms of Release. Amend RSA 651:45,
I (supp) as inserted by 1973, 370:37 as
amended by striking out said paragraph and
inserting in place thereof the following:

I. A prisoner may be released on
parole upon the expiration of the minimum
term of his sentence, minus any credits
received pursuant to RSA 651:55-c, plus the
disciplinary period added to such minimum
under RSA 651:2, II-e, any part of which is
not reduced for good conduct as provided in
RSA 651:55-b, provided it shall appear to
the state board of parole, after having

given the notice required in RSA 651:45-e, to be a reasonable probability that he will remain at liberty without violating the law and will conduct himself as a good citizen. Any prisoner so released shall be given a permit by the board to be at liberty from prison during the unexpired portion of the maximum term of his sentence.

5 Sentence of Life Imprisonment. Amend RSA 651:45-a as inserted by 1973, 370:38 as amended by striking out said section and inserting in place thereof the following:

651:45-a Eligibility for Release; Life Sentences. A prisoner serving a sentence of life imprisonment, except one convicted of murder in the first degree or one convicted of murder which was psycho-sexual in nature and committed prior to April 15, 1974, may be given a life permit at any time after having served 18 years. Eighteen years shall be deemed the minimum term of his sentence for the purposes of this section, minus any credits received pursuant to RSA 651:55-c, plus the disciplinary period added to such minimum under RSA 651:2, II-e, any part of which is not reduced for good conduct as provided in RSA 651:55-b, provided it shall appear to said board to be a reasonable probability that he will remain at liberty without violating the law and will conduct himself as a good citizen. The provisions of this section shall not apply to a prisoner serving a life sentence when the court, pursuant to RSA 630:1-b, II, has specified a minimum term other than that prescribed in this section.

6 Repeal. RSA 651:55-a relative to credits against the sentence of a prisoner who donates blood is hereby repealed.

7 Credits for Good Conduct. Amend RSA 651:55-b (supp) as inserted by 1973, 370:41 as amended by striking out said section and inserting in place thereof the following:

651:55-b Credits for Good Conduct.

I. The warden of the state prison shall, on a monthly basis, review the conduct of each prisoner subject to parole to determine whether the prisoner shall receive credit for good conduct as provided in this section.

II. The warden shall by rule determine the standards for the earning of credit for good conduct. Such rules shall not be subject to the provisions of RSA 541-A.

III. If, as a result of the review provided in paragraph I, the warden determines that a prisoner has exhibited good conduct, he may reduce the additional disciplinary period provided in RSA 651:2, II-e and the maximum sentence of such prisoner by up to 12-1/2 days for each month during which the prisoner has exhibited such good conduct.

IV. Credits may be granted subject to the provisions of this section provided that:

(a) Any prisoner who escapes from the state prison or from custody of any person charged with his custodial safekeeping, or from the limits of his minimum custody or community corrections boundaries or agreements will automatically suffer the loss of all accrued good conduct credits. This loss is in addition to and not in lieu of any other administrative or

judicial punishment later imposed for the escape.

(b) Any serious act of misconduct or insubordination, or persistent refusal to conform to prison regulations during his confinement shall subject the prisoner to the loss of all or any portion of such credits, at the discretion of the warden.

(c) The warden at his discretion may restore all or part of the good conduct credits lost under subparagraphs (a) or (b) should the prisoner later demonstrate exemplary behavior.

(d) Provided further, that upon a prisoner's release on parole any such credits earned prior to his release shall not thereafter be lost.

V. Any good conduct credit earned against a maximum sentence by a prisoner before August 22, 1979, except for loss in the manner provided by this section, shall be unaffected by enactment of this section.

8 Exemption from Administrative Procedures Act. Amend RSA 541-A:10 by inserting after paragraph IX the following new paragraph:

X. RSA 651:55-b, II relative to credit for good conduct of prisoners.

9 Effect on Prior Law. Any person convicted of a crime any element of which occurred prior to the effective date of this act shall be subject to the sentencing, parole and credit for good conduct provisions of the law as such provisions existed immediately prior to the effective date of this act. Such provisions of law shall be continued in effect, only for such purpose, as if this act were not in force.

10 Severability. If any provision of this act or the application thereof to any person or circumstances is held invalid, the invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provisions or applications, and to this end the provisions of this act are severable.

11 Effective Date. This act shall take effect upon its passage.

HB 18, relative to a 5% tax on income. Inexpedient to Legislate.

The majority report includes several different viewpoints. Some Committee members are firmly opposed to an income tax; other members feel that this particular bill has numerous administrative problems and difficulties

related to distribution of funds to cities and towns which need more work. Several members, while they are not opposed to an income tax per se, feel that tax reform should encompass a more general revision of our tax structure. These members note the present ongoing work of the Select Committee on Revenue Reform (SJR 1) and feel that there should be an adequate commitment of resources to allow this Committee to fulfill its charge. The Committee's report is due by December 1982. Rep. W. Douglas Scamman for Ways and Means.

HOUSE RESOLUTION NO. 7

on the death of Albert H. Dow, III

WHEREAS, Albert Dow, New Hampshire born, bred and educated, responded without hesitation joining last week's search and rescue effort for two missing climbers on Mount Washington, and

WHEREAS, as an experienced technical climber, he was fully aware of the dangers that the mountain holds especially in the winter, and had participated in many rescue efforts, and

WHEREAS, his motivation was in the spirit among mountaineers that "if somebody is in trouble, you help them out. You realize and hope that they would certainly do the same for you in a similar situation," and

WHEREAS, he and partner Michael Hartrick were one of several two-man teams from the all-volunteer Mountain Rescue Service, a group organized in 1974 to coordinate such efforts, and

WHEREAS, an avalanche on the Lions Head Trail claimed the life of Albert Dow and nearly that of Michael Hartrick, and

WHEREAS, there can be no more fitting epitaph than that expressed by the Reverend Robert Thurston, pastor of the Community Church of Melvin Village at Services for Dow, "He gave his life to save others," now therefore be it

RESOLVED, that the members of the House of Representatives do hereby extend their sympathy to the family of Albert H. Dow, III.

Unanimously adopted by a rising vote of silent prayer.

COMMITTEE REPORTS (Regular Calendar)

HB 13, relative to the exclusion of automobile dealers and manufacturers from regulation as insurance companies.

Majority: Ought to Pass with Amendment.

Minority: (Reps. Crory, Leslie, Gary Dionne, Christy, Plomaritis, Brady and Gelinas) Inexpedient to Legislate.

MAJORITY: After lengthy study and debate, a majority (8-6) felt that extended motor vehicle warranties sold by manufacturers and New Hampshire auto dealers should have their contracts reviewed for approval by the Attorney General's Office. This bill, however, will also preclude a recent (August 1981) ruling by the Insurance Commissioner that under the 1959 law he now will regulate the price for such warranties, and those who sell same must become licensed insurance agents for this purpose. For 22 years there have been no significant abuses. It is the opinion of the majority that legislative intent is not for more unneeded regulation on business in our state. Rep. Conrad L. Quimby for the Majority of Commerce and Consumer Affairs.

MINORITY: RSA 407 requires that extended motor vehicle warranty agreements are to be considered insurance contracts. Regular manufacturer/dealer warranties given at the time of sale for no additional cost to the customer are not regulated by this statute - only extended plans for longer periods at an additional cost to the customer. In 1981, Commissioner Whaland issued new regulations requiring car manufacturers and car dealers to be licensed (Fee

\$200), file their contracts, and have their rates approved before offering extended warranties for sale. Such contracts must be clear, concise, contain no misleading or deceptive provisions, and not demand excessive rates. Salespersons selling this insurance would be licensed (Fee \$10) and would be required to pass a limited exam to prove knowledge of the insurance contract being sold.

Instead of complying with these regulations by November 1, the automobile dealers filed a suit in district court challenging the constitutionality of RSA 407, and the commissioner's regulations. A hearing was set for December 29, 1981. The dealers (plaintiff) asked for a postponement and entered HB 13 in this special session. If HB 13 is passed private insurance companies offering extended plans would still be regulated but car manufacturers and dealers selling extended plans would not be regulated.

The previous majority of the committee concurred with the Insurance Commissioner and felt all extended warranties are insurance contracts and should be regulated. To pass HB 13 now with a pending court challenge was also considered inappropriate. We are now the minority because of an invalidation of our first executive session based on Rule 16. (Reps. Elizabeth L. Crory, Anne Leslie, Gary S. Dionne, C. Dana Christy, Claire Plomaritis, Bonnie B. Brady and David L. Gelinis for the Minority of Commerce and Consumer Affairs.

Amendment

Amend RSA 407-A:1, I as inserted by section 1 of the bill by striking out said paragraph and inserting in place thereof the following:

I. "Motor vehicle warranty agreement" shall mean any contract of warranty, guaranty, suretyship or otherwise, relating to the replacement or repair of motor vehicles or parts thereof for a specific period except:

(a) Contracts made by dealers in or manufacturers of, the vehicle covered by the contract, whether or not for additional consideration;

(b) Where the dealer or manufacturer does not share the risk of loss with any other person; and

(c) Where the dealer or manufacturer has first filed for approval with the consumer protection division in the office of the attorney general:

(1) copies of all documents, provided to the public, relating to such contract, including, but not limited to, the contract, prices, brochures, sales aids, application forms, and instructions. (The term "document" shall not include advertising in newspapers, manazines, journals, or on television, radio or billboards); and

(2) in the case of a contract being offered solely by a dealer, a certification that the dealer has, at the time of filing, a bond on file equal to or exceeding \$50,000.

Rep. Crory moved that the report of the Minority, Inexpedient to Legislate, be substituted for the report of the Majority, Ought to Pass with Amendment, spoke to her motion and yielded to questions.

Reps. Christy, Brady, Leslie and Gary Dionne spoke in favor of the motion.

Reps. Vartanian and G. Philip Rodgers spoke against the motion and yielded to questions.

Reps. William Roberts, Lawrence Guay and Quimby spoke against the motion.

Rep. Townsend moved the previous question. Sufficiently seconded. Adopted.

Rep. Parr requested a roll call. Sufficiently seconded.

Ordered to third reading.

HB 27, relative to educational expenses for certain handicapped children. Ought to Pass with Amendment.

HB 27, as amended, clarifies confusing language and resolves inconsistencies in three existing statutes, RSA 186-C:13, RSA 193:27-29, and RSA 126-A:49, all pertaining to liability for special education costs. It limits the financial liability of school districts for students three to 21 years old presently at the Laconia State School to the state average per pupil cost for the biennium, after which school districts will accept full responsibility under RSA 186-C. HB 27 also makes an appropriation to insure the continued existence of the special education program at the New Hampshire Hospital for the rest of the fiscal year and establishes a mechanism that would enable school districts to utilize the program as an out-of-district placement on a fee for service basis. Vote 17-0. Rep. Betty Jo Taffe for Education.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to educational expenses for certain handicapped children and relative to the special education program of the child and adolescent unit at the New Hampshire hospital and making an appropriation therefor.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Expense Liability. Amend RSA 186-C:13 (supp) as inserted by 1981, 352:2 as amended by striking out said section and inserting in place thereof the following:

186-C:13 Liability for Expenses. All expenses incurred by a school district in administering the law in relation to education for educationally handicapped children shall be paid by the school district where the child resides, except as follows:

I. When an educationally handicapped child is placed in a home for children or health care facility as defined in RSA 193:27, the liability for expenses for such child shall be determined in accordance with RSA 193:29.

II. When an educationally handicapped child is placed in a state institution, the liability for expenses for such child shall be determined in accordance with RSA 186-C:19.

2 State Institutions. Amend RSA 186-C by inserting after section 18 the following new sections:

186-C:19 Educationally Handicapped Children in State Institutions.

I. For an educationally handicapped child in a state institution, the school district responsible for selecting and funding the child's special education or special education and educationally related services shall be as follows:

(a) If such child is in the legal custody of the parent, the school district in which the child's parent resides shall be the liable school district.

(b) If such child is not in the legal custody of the parent, or if the parent resides outside the state, the school district in which the child last resided before placement in a state institution, home for children or health care facility as defined in RSA 193:27 shall be the liable school district.

II. For an educationally handicapped child in a state institution, the responsible school district shall be liable for the costs of all special education or special education and educationally related services as provided in the school district's individualized education plan for that child except as follows: For the 1982 and 1983 fiscal years, the responsible school district's annual financial liability for a child who was enrolled at the Laconia state school and training center as of July 1, 1981, shall not exceed the applicable state average per pupil cost as determined by the state board of education, and the state shall be liable for the balance of such costs, which shall in no case be taken from the \$10,000,000 appropriated for state aid under RSA 186-C:18. If more than one school district is liable for such a child during a single fiscal year, the total annual financial liability to the school districts shall not exceed the applicable state average per pupil cost, said liability to be prorated on a per diem basis. For such a child who is enrolled at the Laconia state school and training center for less than a full year, the liability for such costs shall be prorated on a per diem basis by the Laconia state school and training center.

III. Nothing in paragraphs I or II of this section shall diminish the responsibility of the financially liable school district as defined in paragraph I to develop and implement an individualized education plan or to fulfill its obligations under other sections of this chapter for an educationally handicapped child in a state institution, regardless of whether such child was initially placed by a school district, the parent or some other agent.

IV. "State institution" as used in this section means the New Hampshire hospital, the Laconia state school and training center, and the youth development center.

186-C:20 Special Education Program of the Child and Adolescent Unit at the New Hampshire Hospital.

I. Notwithstanding the provisions of any other law to the contrary, the expenses for an educationally handicapped child assigned to the special education program of the child and adolescent unit at the New Hampshire hospital shall be the

responsibility of the school district so assigning the child. Such a school district shall pay all the fees and rates established annually for the special education program of the child and adolescent unit by a committee composed of the commissioner of health and welfare or his designee, the commissioner of education or his designee, a representative of a local school district appointed by the joint education council, the superintendent of the New Hampshire hospital or his designee, and an individual appointed by the Governor's commission for the handicapped. A school district shall not be liable under this section for court-ordered or placements not agreed to by the school district.

II. The special education program of the child and adolescent unit shall receive all the moneys paid by school districts under this section and is authorized to receive and expend such funds to operate the program. Under no circumstances shall the special education program of the child and adolescent unit expend more than it receives under this section.

3 Application of Receipts. Amend RSA 6:12, I(m) and (n) (supp) as inserted by 1981, 500:2 and by 1981, 223:3 by striking out said subparagraphs and inserting in place thereof the following:

(m) Moneys received under RSA 457:29, which shall be credited to the special fund for domestic violence programs;

(n) The share of the normal yield tax going to the department of resources and economic development under RSA 79:14 which shall be credited to the unincorporated places forest conservation fund; and

(o) Moneys received from school districts sending children to the special education program of the child and adolescent unit at the New Hampshire hospital pursuant to RSA 186-C:20.

4 Limitation; Administration.

I. The limitation on expenditures in the last sentence of RSA 186-C:20 shall not be applicable until the fund established under RSA 186-C:20 and RSA 6:12, I(o) has sufficient funds to support the special education program of the child and adolescent unit at the New Hampshire hospital or until June 30, 1983, whichever is earlier. The limitation for the fiscal year commencing July 1, 1981, and ending June 30, 1982, shall be the sum appropriated for such fiscal year by this act and any sums received under RSA 186-C:20

II. The state treasurer shall collect the fees pursuant to RSA 186-C:20 and RSA 6:12, I(o). He shall pay the expenses of administering this act out of the appropriation made by this act and any sums received pursuant to RSA 186-C:20 and RSA 6:12, I(o) for the fiscal year ending June 30, 1982. If by that date the sum in the special account established in RSA 6:12, I(o) is not sufficient for the administration of the special education program of the child and adolescent unit at the New Hampshire hospital, he shall pay the expenses of administering this act out of

any money in the treasury not otherwise appropriated until the fees under RSA 186-C:20 and RSA 6:12, I(o) received by him are sufficient but no longer than June 30, 1983. Thereafter he shall pay the expenses of administering this chapter out of the fees collected hereunder and shall reimburse the treasury for previous expenses paid by him. The governor is authorized to draw his warrant for the sums authorized by this section out of any money in the treasury not otherwise appropriated.

5 Appropriation.

I. There is hereby appropriated to the department of health and welfare, division of mental health and developmental disability, for the special education program of the child and adolescent unit at the New Hampshire hospital the sum of \$90,000 for the fiscal year ending June 30, 1982. The governor is authorized to draw said sums from any money in the treasury not otherwise appropriated.

II. The sums appropriated under paragraph I shall be offset by the funds received under the provision of RSA 186-C:20 and RSA 6:12, I(o). Any sums received pursuant to these sections after the effective date of this act that are in excess of the specific sums appropriated shall be used to reduce the fees and rates of the special education program of the child and adolescent unit. Any such sums in excess that are not needed for such program during the fiscal year received shall be kept in a special account for the following fiscal year.

6 Exception Added. Amend RSA 126-A:49 (supp) as inserted by 1977, 600:27, II by striking out said section and inserting in place thereof the following:

126-A:49 Educational Expenses. Educational expenses of any resident or patient, who is capable of being benefited by instruction and who is between 6 and 21 years of age, as required under statute and incurred in the institutions named in or at the direction of the commissioner of health and welfare, in any public or private institution or elsewhere, shall be recovered from the school district in which the patient's or resident's parents or legal guardian reside on the January first preceding the recovery up to the state average elementary cost per pupil, as determined by the state board of education for the preceding school year. The liability of the school district for such expenses shall precede that of the persons or estates named in RSA 126-A:46 and RSA 126-A:47, which are hereby relieved of liability for such expenses to the extent of the school district's liability. This section shall not apply to the recovery of expenses for special education or special education and educationally related services in the case of an educationally handicapped individual as determined by RSA 186-C, which statute shall determine the extent to which educational expenses may be collected from a parent or school district.

7 Definitions Amended. Amend RSA 193:27, IV and V as inserted by 1981, 326:1

by striking out said paragraphs and inserting in place thereof the following:

IV. "Sending district" means the school district in which a child last resided before placement in a home for children, health care facility, or state institution, if such child is not in the legal custody of a parent or if the parent resides outside the state; if the child is retained in the legal custody of a parent residing within the state, "sending district" means the school district in which the parent resides.

V. "Receiving district" means the school district in which a home for children or health care facility is located if a child who is placed therein attends a public school in that district or receives educational services from that district.

(a) For a child attending a public school in the receiving district who receives special education as required by RSA 186-C, the sending district is liable for the average per pupil cost of the receiving district as estimated by the state board of education under RSA 193:4.

(b) For a child attending a public school to which the receiving district as defined in RSA 193:27 shall pay tuition under an AREA or other contractual agreement, the sending district as defined in RSA 193:27 is liable for all costs which said receiving district must pay under that agreement.

(c) If a child is assigned to an out-of-district special education program, the sending district is liable for all costs which the receiving district must pay under RSA 186-C.

II. Actual fiscal liability under paragraph I commences upon enactment of this statute. However, the determination of liability as applied in paragraph I refers to children placed in a home for children or health care facility prior to as well as subsequent to enactment.

III. If the receiving district receives any state or federal aid for educating a child in any home for children or health care facility, including but not limited to aid for foster children under RSA 198:23, that amount shall be deducted from the liability of the sending district for that child.

IV. The agency responsible for placing the child shall inform the sending and receiving districts of where the child presently resides and where the child last resided before placement in a home for children, health care facility, or state

Amendment adopted.

Referred to Appropriations.

SB 10, establishing a dam maintenance fund for Merrymeeting Lake Dam and making an appropriation therefor. Majority: Ought to Pass with Amendment. Minority: (Reps. Joan M. Schreiber and Phoebe A. Chardon) Ought to Pass.

MAJORITY: Senate Bill 10, as amended, establishes a dam maintenance fund with revenue derived from state leased hydro projects which are authorized with Governor and Council approval. The fund will be used to maintain and repair state-owned dams, and specifically addresses the repair to the Merrymeeting Lake Dam and nine other state-owned dams which are currently under breach or

repair orders. Vote 11-2. Rep. Lee Anne S. Steiner for the Majority of Resources, Recreation and Development. MINORITY: The minority members of the Committee support passage of the original bill which provides \$200,000 for repairs of an emergency nature to the Merrymeeting Dam.

The minority members oppose passage of the amendment which is a substitute - in effect an entirely new bill. The dam maintenance fund established by this amendment is derived not from "state leased hydro projects" as the majority report states, but rather according to the State Treasurer from a bond issue which mortgages the state to the tune of \$2.5 million in principal and at least \$3.15 million in interest and/or (it is not clear) from an appropriation of \$2.2 million - a possible total general obligation to the state of \$7.85 million - this at a time when the state is in financial difficulty, its position in the bond market delicate, its credit rating in question.

This amendment also authorizes the Water Resources Board to expend from this dam maintenance fund such amounts "as are necessary" for the repair and reconstruction of 10 named dams and other unnamed minor projects - the "necessary" to be determined not by the Legislature but by the Water Resources Board.

The revenue anticipated from hydro project leases, which is earmarked in this amendment to supply the dam maintenance fund, is a yet unproven source - not now available and in the future shrouded with numerous unknowns such as start up time, collection or production problems, adjustment of PUC-established rates.

In the view of the minority members, the provisions offered in this amendment need a lot more study.

The minority members believe that this amendment removes from the Legislature both flexibility and control over the allocation of funds and contains too many far-reaching commitments, uncertainties, and ambiguities to be passed at this time. (Reps. Joan M. Schreiber and Phoebe A. Chardon for the Minority of Resources, Recreation and Development).

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

481:31 Bonds Authorized. To provide working capital for initiation of the fund established in RSA 481:30, the state treasurer is hereby authorized to borrow upon the credit of the state the sum of \$2,500,000 and for said purpose shall issue bonds and notes in the name of and on behalf of the state of New Hampshire in accordance with RSA 6-A.

481:32 Hydro Funds. necessary for performance of work on state-owned dams only in the following categories:

I. Minor projects and emergency repairs, which may be completed by force account methods by the construction and operating divisions of the water resources board in accordance with the provisions of the manual of procedure;

II. Repair projects, which may be completed by force account methods by the construction division of the water resources board and shall be authorized by the legislature with the approval of governor and council;

4 Repeal. RSA 270:5, VII relative to a special fund for the repair and maintenance of dams is hereby repealed.

5 Effective Date. This act shall take effect upon its passage.

Rep. Lamprey spoke to the amendment and yielded to questions.

Rep. Chardon spoke against the amendment and yielded to questions.

Reps. LaMott and Heald spoke in favor of the amendment and yielded to questions.

Rep. Schreiber spoke against the amendment.

Reps. Felch and Oleson spoke in favor of the amendment.

Rep. Townsend moved the previous question. Sufficiently seconded. Adopted.

Rep. Baybutt requested a division.

230 members having voted in the affirmative and 74 in the negative, the amendment was adopted.

Referred to Appropriations.

HB 30, imposing an amusement machine permit fee, and making an appropriation therefor. Refer for Interim Study.

The majority of the Committee feels the bill merits further consideration. As the bill stands there are substantial administrative problems and at the \$100 per machine it would only raise \$500,000. If this bill is to be expanded to raise much money the Committee feels the impact should be studied further and not passed in a Special Session. Vote 11-3. Rep. W. Douglas Scamman for Ways and Means.

Referred for Interim Study.

Rep. Bosse moved that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourn today it be to meet Thursday, February 4, at 1:00 p.m.

Adopted.

LATE SESSION

Third reading and final passage

HB 13, relative to the exclusion of automobile dealers and manufacturers from regulation as insurance companies.

HB 33, relative to the regional disposal districts.

UNANIMOUS CONSENT

Rep. Johnson addressed the House by unanimous consent.

There's a gathering in Concord
Home folks can only guess their fate
For the General Court is meeting
And it's going to legislate.

There is talk of big deficits
One can only speculate
What the General Court will do
When it starts to legislate.

To divide wealth and support everyone
Is not the duty of the State
But the General Court is meeting
And it's going to legislate.

They'll try to "Sackett" every income
And attempt to regulate
For the General Court's in session
And it's going to legislate.

The Liberals and Conservatives
Can't ever seem to mediate
And the spenders win the voting
when it's time to legislate.

If we could practice some economy
Or perhaps metriculate
It wouldn't be so scary
When we come to legislate.

The folks back home will pay the tab
Whether small or probably great
For that's what happens when
The General Court meets to legislate.

My friends we represent our people
Let's resolve to play it straight
For we're the General Court
And we're here to legislate.

Rep. Townsend moved that Rep. Johnson's
remarks be printed in the Journal.
Adopted.

Rep. Bosse moved that the House stand in
recess for the purpose of Introduction of
Bills and Enrolling Reports only.
Adopted.

RECESS

Rep. French moved that the House adjourn.
Adopted.

COMMITTEE REPORTS (Regular Calendar)

HB 14-FN, relative to the nurses registration board. Majority: Ought to Pass. Minority: Reps. Stuart Trachy, Ada L. Mace, Robert G. Holbrook and Frederick T. Ernst.

MAJORITY: The Committee has worked throughout two sessions to improve the functions and administration of the many state boards and commissions under its jurisdiction. The state's registered nurses and licensed practical nurses will, under this bill, have their registration system reestablished. Amendments to this bill would have improved board structure and authority, and it is hoped these matters will be addressed in future legislation. Vote 13-4 for the bill in its present form. MINORITY: The minority of the Committee strongly supports the reinstatement of the Board of Nursing, but cannot support HB 14 unamended. This bill, along with all the other bills reinstating occupational licensing boards, was considered thoroughly by the Executive Departments and Administration Committee during the 1981 regular session. Criteria for the structure and operation of the board was established and applied to all the boards with few exceptions. This criteria was endorsed 25 times last year by the House and 23 times by the Senate. Much of this criteria is not included in House Bill 14. The minority proposed compromise amendments that provided for the following: 6 members on the board (instead of 5), stronger public member definition, the option of using a hearing officer, and a continuing competency program. The

minority also agreed to strike out the section of the bill dealing with the computerization of records. The minority wants to point out a serious flaw in HB 14 that allows the Commissioner of Education to keep the fees collected, in a separate fund, whereas all other boards' fees are deposited in the general fund. This minority report is submitted by the majority of the Subcommittee on HB 14.

Rep. Trachy spoke against the Committee report.

Reps. Hildreth, William Boucher, Butler and Spirou spoke in favor of the report.

Reps. Townsend and Ward spoke to the report.

Rep. Baybutt moved the previous question. Sufficiently seconded. Adopted.

Rep. Hildreth requested a roll call. Sufficiently seconded.

HB 2, reapportioning the house of representatives and delegates to state conventions. Majority: Ought to Pass with Amendment. Minority: (Reps. Chris Spirou, Peter C. Hildreth, James M. Demers, Maura Carroll, Michael B. King, Romeo J. Theriault, David B. Campbell and Delina R. Hickey) Ought to Pass with Amendment.

MAJORITY: The reapportionment of the New Hampshire House has been under study for eight months. Plans for every county have been established, discarded, reapproved and revised over and over again. Rules of procedure and desirable numerical results have been imposed by rulings of our United States Supreme Court. These legal requirements have pressured the Committee to make some unpopular decisions.

Some have felt this search for correct and fair solutions has indicated a lack of determination and an inability to make up the collective mind. To the contrary, the early attempts, based on a desire to please incumbents and political leaders, were discarded in the face of strong objections to reach a solution of fairness to the person of paramount importance - the individual citizen. The state-wide deviation is 13.74%.

Unfortunately, from this Chairman's viewpoint, the Committee vote on the total amendment was drawn on party lines. Several county plans were approved by higher margins with endorsements from members of both parties.

The bill, as amended, will insure a legal and fair representation of New Hampshire citizens for the next ten years.

The majority of the Reapportionment Committee now presents HB 2, as amended, and recommends its adoption. Vote was 12-7. Rep. Russell C. Chase for the Majority of Reapportionment.

MINORITY: The Minority Report on State Redistricting is based on the

fundamental New Hampshire principle of "small" district representative government and in compliance with the one-man/one-vote principle. Speaker Tucker, for the first time in our State's history, introduced "floterial districts" for the purposes of State Redistricting. The Minority reluctantly agrees with the Speaker that it is the only process available to bring the State's deviation to an acceptable level.

The Minority Report is presented not as a partisan position but rather as a genuine attempt to have our State redistricted in the fairest way possible while respecting the traditional New Hampshire value of "small district" representation.

The Minority Plan has a statewide deviation of 13.13% as opposed to the 13.74% of the Majority Report. More importantly, seven (7) counties in the Minority Report have a deviation of less than 10%. Only three (3) of the counties in the Majority Report are below 10% in deviation. In addition, six (6) in the Minority Report are below the deviation for those counties in the Majority Report. Three (3) counties have the deviation in each plan. We believe adoption of the Minority Committee Report serves the best interest of all of our citizens, complies with the one-man/one-vote mandate, respects the principle of "small town" representation and is fair to both political parties. (Reps. Chris Spirou, Peter C. Hildreth, James M. Demers, Maura Carroll, Michael B. King, Romeo J. Theriault, David B. Campbell and Delina R. Hickey for the Minority of Reapportionment)

Amendment

Amend the table in RSA 662:5 as inserted by section 1 of the bill by striking out in paragraph IX, Strafford County, District No. 10 and inserting in place thereof the following:

District No. 10			
Strafford			
Rochester	Wards 3 & 4		5

District No. 11			
Rochester	Wards 1, 2 & 5		5

The Assistant Clerk read the amendment.

Rep. Meader explained the amendment.

Rep. Chase spoke in favor of the amendment.

Amendment adopted.

Ordered to third reading.

Rep. Bibbo wished to be recorded as opposed to the proposal in Merrimack County, Dist. 2

Rep. Stockman wished to be recorded as opposed to the proposal in Merrimack County, Dist. 8

Reps. Waters and John Cate wished to be recorded as opposed to the proposal in Merrimack County, Dist. 9

Rep. Ardinger wished to be recorded as opposed to the proposal in Sullivan County, Dist. 2

Rep. Kaklamanos wished to be recorded as opposed to the proposal in Hillsborough County, Dist. 21

Rep. Gary Dionne wished to be recorded as opposed to the proposal in Belknap County, Dist. 6

Rep. Lamprey wished to be recorded as opposed to the proposal in Belknap County, Dists. 1, 2, 3, 5 and 13

Rep. Hendrick wished to go on record as being opposed to the passage of HB 2 in both the Majority and Minority form. Both versions effectively disenfranchise the town of Litchfield by joining it with Merrimack in a flatorial district. Litchfield has 80 per cent of the population needed for an extra earned representative, while Merrimack has 69 per cent, which means that where one-man one-vote is concerned, Litchfield has only 67 per cent of a vote and Merrimack, 101 per cent. It might be possible to persuade the citizens of Litchfield to become a living sacrifice for the one-man one-vote theory, but when they see the city of Manchester with a 49 per cent minus population being given an extra representative it is hard for them to believe in self-sacrifice. They wish me to voice their opposition to HB 2.

Rep. Baybutt offered the following:

RESOLVED, that in accordance with the list in the possession of the clerk, House Bills numbered 38-FN and 39-FN, their introduction having been approved by the Rules Committee, shall be by this resolution read a first and second time by the therein listed titles, sent for printing, and referred to the therein designated committees.

Amend RSA 186-C:19, II, III and IV as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

II. For an educationally handicapped child in a state institution, the responsible school district shall be liable for all expenses incurred in administering the law in relation to educationally handicapped children except as follows: For the 1982 and 1983 fiscal years, the responsible school district's annual financial liability for a child who was enrolled at the Laconia state school and training center as of July 1, 1981, shall not exceed the applicable state average per pupil cost as determined by the state board of education, and the state shall be liable for the balance of such costs, which shall in no case be taken from the \$10,000,000 appropriated for state aid under RSA 186-C:18. If more than one school district is liable for such a child during a single fiscal year, the total annual financial liability to the school districts shall not exceed the applicable state average per pupil cost, said liability to be prorated on a per diem basis. For such a child who is enrolled at the Laconia state school and training center for less than a full year, the liability for such costs shall be prorated on a per diem basis by the Laconia state school and training center.

III. Nothing in paragraphs I or II of this section shall diminish the responsibility of the financially liable school district as defined in paragraphs I and II to develop and implement an individualized education plan or to fulfill its obligations under other sections of this chapter for an educationally handicapped child in a state institution, regardless of whether such child was initially placed by a school district, the parent or some other agent.

SB 12, correcting the omission in the domestic violence law revision and relative to the release of delinquent children and children in need of services. Ought to Pass with Amendment.

The Committee amended SB 12 by deleting the Senate amendment. It is the Health and Welfare Committee's feeling that this section of the bill needs further study before being considered by the full House.

The amendment also inserts into the statutes provisions relating to settlement of parents in determining the appropriate legally liable unit. This has been the wish of the local Welfare Administrators' Association since the 1979 revision of RSA 169. Rep. Gertrude I. Butler for Health and Welfare.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

Either town shall have a right of action over for such expenses against the town or city of settlement of the parent or parents having custody of the minor, or the county in which the parent or parents having custody reside if they do not have a settlement or the people chargeable by law for the minor's support and necessities. If a town cannot collect for such payments made in behalf of a minor, the payments shall be considered assistance to a pauper as to the person chargeable by law for the minor's support and necessities and such person shall be subject to a loss of settlement in accordance with the provisions of RSA 164-A:5 provided that such person has a settlement in such town. The court shall require the individual chargeable by law for the minor's support and necessities to submit a financial statement to the court upon which the court may make an order as to reimbursement to the appropriate legally liable unit as may be reasonable and just, based on the person's ability to pay.

II. Upon determination of liability at any stage of the proceeding, the court shall send notice to the appropriate legally liable unit. The legally liable unit may, within 30 days from the receipt of notice, request a hearing on the issue of liability. At such hearing, the court shall provide all financial information, including names and addresses of persons chargeable by law for the minor's support and necessities, to the legally liable unit.

HB 26-FN, relative to radioactive waste management and making an appropriation therefor. Ought to Pass with Amendment.

The accommodations include major testimony given at the first public hearing. All participants at the second public hearing were satisfied, as was the Committee evidenced by its unanimous vote. Rep. Robert H. Eisengrein for Science and Technology.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to the establishment of a low-level radioactive waste management task force and making an appropriation therefor.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Findings. The general court hereby finds:

I. The state of New Hampshire has no formally articulated policy and plan for the storage, treatment or disposal of low-level radioactive waste, and recent federal legislation has given the state certain responsibilities in dealing with low-level radioactive waste management;

II. The continued use of radioisotopes in medical diagnosis and treatment, research activities and industry is essential to maintain the health, safety and welfare of New Hampshire's citizens. Current technology identified by the United States Code of Federal Regulations, 10 CFR 61, represents the best current standard for safe and economical disposition of the resultant low-level radioactive waste. The implementation of the state plan shall be part of a comprehensive program consistent with the state's interests in the health, safety and welfare of its citizens;

III. The federal government has declared that each state is responsible for the disposal of its own commercially generated low-level radioactive waste either within or without the state, and New Hampshire faces the imminent loss of access

to currently available low-level radioactive waste disposal facilities.

2 New Subdivision. Amend RSA 125 by inserting after section 77-f the following new subdivision:

Task Force on Low-Level Radioactive Waste Management

125:77-g Definitions. In this subdivision:

I. "Low-level radioactive waste" means radioactive waste not classified as high-level radioactive waste or transuranic waste, but not waste generated from the mining or milling of nuclear fuel ores. "High-level radioactive waste" means spent nuclear fuel or that portion of the material generated in the processing of such fuel that contains most of the fission products and most of the activities not separated out during the reprocessing. "Transuranic waste" means radioactive waste containing greater than 10 nanocuries of transuranic activity per gram of material;

II. "Task forces" means the task force on low-level radioactive waste management established by RSA 125:77-h;

III. "Radioactive waste management" means the systematic control of the collection, storage, transportation, possession, treatment, recovery and disposal of low-level radioactive wastes.

125:77-h Task Force Established.

I. There is hereby established the task force on low-level radioactive waste management. The members of the task force shall be:

(a) The governor or his designee;

(b) The commissioner of safety or his designee;

(c) The commissioner of public works and highways or his designee;

(d) The executive director of the water supply and pollution control commission or his designee;

(e) The chairman of the state radiation advisory committee or his designee;

(f) The commissioner of health and welfare or his designee;

(g) The commissioner of resources and economic development or his designee;

(h) Two members of the house of representatives appointed by the speaker of the house;

(i) Two members of the senate appointed by the president of the senate; and

(j) Four public members appointed by the governor. The public members shall be:

(1.) A representative of a generator of low-level radioactive waste;

(2.) A person representing a public interest group;

(3.) A representative of an environmental organization; and

(4.) A physician experienced in nuclear medicine.

II. Membership on the task force shall be coterminous with the official state position held at the time of appointment.

III. The members of the task force shall select a chairman, a vice-chairman and a clerk from among its members by majority vote. Any permanent designee appointed to the task force may serve as chairman, vice-chairman or clerk. The office of record shall be the office of the New Hampshire radiological health program in the division of public health services.

125:77-i Powers and Duties of the Task Force. The task force is designated as the point of contact in the state for all matters relating to low-level radioactive waste management. The task force is authorized to negotiate on behalf of the state with other states or the federal government on any matter relating to low-level radioactive waste management. The presence of a quorum is required for the task force to transact any of its business. The duties of the task force are as follows:

I. Develop a state plan for the management of all low-level radioactive waste generated within the state. The state plan shall include proposals for legislation creating a state plan and a siting process for a low-level radioactive waste facility and any other proposed legislation deemed necessary by the task force. The siting process shall include public hearings and shall provide for the involvement of local government. Prior to each public hearing, the task force shall notify the media, as may be appropriate, to obtain the broadest possible notice to the public. Notice of a hearing shall include, at a minimum, publication at least 2 times in a newspaper of state-wide circulation and, if appropriate, in a newspaper of local or regional circulation, no more than 20 days nor less than 7 days prior to the hearing. The task force shall fully consider in its study different methods for low-level radioactive waste disposal and transportation within and without the state. In its investigation and study for a process of siting, the task force shall utilize a literature survey of New Hampshire terrain.

II. No later than December 1, 1982, submit a report to the governor and council, the speaker of the house of representatives and the president of the senate for distribution to all members of the general court. The report shall detail all the activities of the task force and shall include a complete financial statement.

III. Any proposal developed by the task force as a result of negotiation for a plan or for an interstate compact agreement shall be subject to ratification by both houses of the general court by joint resolution in the 1983 regular session. The task force shall initiate the resolution between the dates of January 1, 1983, and March 1, 1983.

IV. The task force shall give paramount consideration to the health, safety and welfare of New Hampshire's citizens during the evaluation process for

any low-level radioactive waste management program.

125:77-j Staff; Expenses. Whenever possible, task force members may draw on any of their staff or departmental resources when discharging duties of the task force. The task force may also expend funds, within its appropriation, for necessary staff, hiring of consultants, field tests, operating expenses and travel expenses incurred in connection with duties of the task force, and for public education programs relating to radioactive waste management. The task force shall make no expenditures without approval in advance by a quorum of the task force.

125:77-k Grants. The task force may apply for, accept and expend grants or gifts, including services, from any source to use for its purposes.

3 Appointments; First Meeting. The appointments to the task force to be made under RSA 125:77-h, I(h) and (i) shall be made within 15 days of the effective date of this act. The task force shall hold its first meeting within 30 days of the effective date of this act, and shall elect its chairman at that meeting.

4 State Geologist. In addition to the duties listed in RSA 12-A:4-b, the state geologist shall, in conjunction with a hydrologist and an ecologist and within 6 months of the effective date of this act, complete a literature survey of New Hampshire terrain and submit a report to the task force on low-level radioactive waste management. The report shall identify areas having suitable ecological, hydrological and geological characteristics for the establishment of a shallow land burial disposal facility for low-level radioactive waste which would comply with federal law.

5 Prohibition. Amend RSA 125:77-b (supp) as inserted by 1979, 350:3 by striking out in line 3 the words "except as hereinafter provided" so that said section as amended shall read as follows:

125:77-b Prohibition. No person shall receive, store or dispose of radioactive waste in the state or within the coastal jurisdiction of the state. Nothing in this subdivision shall be construed to prohibit the on-site storage of spent nuclear fuel rods nor in any way to abrogate or amend the agreement entered into between the state and the United States Atomic Energy Commission pursuant to section 274 of the Atomic Energy Act of 1954 as amended; provided, however, under no circumstances shall spent nuclear fuel rods from any other plant or storage facility be received for on-site storage.

6 Repeal. RSA 125:77-a and RSA 125:77-c through RSA 125:77-f relative to radioactive waste consultation are hereby repealed.

7 Appropriation. The sum of \$25,000 is hereby appropriated to the task force on low-level radioactive waste management for the purposes of sections 2 and 3 of this act for the biennium ending June 30, 1983. The governor is authorized to draw his warrant for said sum out of any money in the treasury not otherwise appropriated.

8 Effective Date. This act shall take effect upon its passage.

HB 38-FN, establishing a task force to reconsider certain unemployment compensation claims and making an appropriation therefor. Refer for Interim Study

There are many unanswered concerns that the Committee has relative to establishing a three-member task force, who would reconsider denied unemployment compensation claims in the period of July 1, 1979 to July 1, 1981.

The Committee commends the desire of the sponsors of this measure to be fair to all citizens if a claim were denied improperly.

The Committee is very much aware of the Report to the Secretary of Labor from the General Accounting Office relative to New Hampshire denial of Unemployment Insurance Benefits.

As a policy committee, the Committee would like Interim Study of this bill to report by October 1, 1982 with findings and suggested changes. Also, it desires a ruling from the Attorney General as well as the Secretary of Labor as to whether the administration costs for this bill would be reimbursable.

Further in depth study is needed. Vote 7-5. Rep. Patricia M. Skinner for Labor, Human Resources and Rehabilitation.

Referred for Interim Study.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

requiring the public utilities commission to have an independent risk analysis study and a separate economic analysis study conducted for the Seabrook nuclear power plant

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Statement of Legislative Intent. The general court acknowledges that the Public Service Company of New Hampshire has applied to the Nuclear Regulatory Commission for an operating license for the Seabrook nuclear power plant. As part of that licensing process the general court has directed the New Hampshire civil defense agency to prepare, or have prepared by an independent consultant, Radiological Emergency Response Plans for those communities that lie within 10 miles of the Seabrook Nuclear Power Plant. These plans, commonly referred to as the Evacuation Plan, are now being prepared and will be completed in December of 1982. The Evacuation Plan will identify the time, equipment and organizational requirements for orderly evacuation of the area should this be required due to radiation releases from an accident at the nuclear power plant. The Evacuation Plan does not address the medical and public health consequences of being exposed to the radiation during the time between the release of radiation and the completion of the evacuation. A risk analysis is required to identify these medical public health consequences. The general court requires a risk analysis based on the nuclear plant designed and constructed specifically for the Seabrook site so that it may be compared to the Evacuation Plan being prepared for this specific seacoast area. The general court requires that both the Evacuation Plan and the risk analysis be completed and the risk impact and attending risk abatement recommendations be evaluated in a public hearing prior to issuance of an operating license for the Seabrook Nuclear Power Plant. The general court is also concerned about the economic impact of any interruption of the electrical generating function of the Seabrook Nuclear Power Plant and it requires an economic impact study of the costs of having to purchase replacement electricity when the Seabrook station is shut down for any reason.

Amend the bill by striking out section 3 and inserting in place thereof the following:

3 Economic Impact Study Required. The public utilities commission shall institute an economic impact study for the Seabrook nuclear power plant. The study shall develop the probable economic impact to New

Hampshire if the Seabrook station is shut down for any reason after it goes on line and the costs of obtaining electricity from other sources in such event. The study shall be conducted by an independent expert chosen by the chairman of the public utilities commission and shall be financed by a grant from the Nuclear Regulatory Commission or from an assessment against the owners of the Seabrook project in proportion to their share of ownership. Such sums as are necessary to pay for the study are hereby authorized and appropriated to the public utilities commission. The policy of the state shall be to oppose the issuance of any operating licenses for the Seabrook plant until the economic impact study is completed and the public utilities commission has an opportunity to study such findings.

4 Oversight Committee. There shall be an oversight committee to monitor the work of the consultants doing the risk analysis study and the economic impact study to assure that they are completed in a thorough and timely manner and to provide additional assistance to the consultants. The 9 member committee shall be appointed as follows: one member representing the general interests of the public appointed by the governor; one member of the public utilities commission designated by the chairman; one member from the New Hampshire civil defense agency designated by the head of that agency; 2 state representatives appointed by the speaker of the house; one state senator appointed by the senate president; 2 persons who shall reside in the 17 community emergency planning zone, appointed by the governor and council; and one representative of Public Service Company of New Hampshire. Amendment adopted.

Referred to Appropriations.

SB 9, relative to the sale of unvented space heaters. Majority: Ought to Pass with Amendment. Minority: (Reps. Edward F. Smith, Marilee H. Rouillard and Selma R. Gould) Inexpedient to Legislate.

MAJORITY: An amended version of SB 9 was introduced by Chairman Wight covering previous questions raised concerning U.L. Std. 647, use of heaters in multiple unit dwellings and some safety hazards. The Committee passed a modification limiting use to single family residences, but otherwise accepting the amendment. Vote 6-3. Rep. Robert H. Eisengrein for Science and Technology.

MINORITY: This legislation ignores the safety concerns of the State's fire fighting community. The major problem with this legislation is that it

legitimizes the sale and use of unvented space heaters, which fire safety officials have testified are hazardous to use in occupied structures. Reps. Edward F. Smith, Marilee H. Rouillard and Selma R. Gould for Minority of Science and Technology.

Amendment

Amend RSA 158:28 as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

II. For the purposes of this section:

(a) "Unvented space heater" shall mean any heating appliance, either wick, wickless or pot burner type, which uses oil, gas or kerosene for fuel, is either stationary or portable, and the products of combustion of which are not directly conducted to the outside of the building via a chimney connector pipe.

(b) "Multiple family residence" shall mean a residence with 2 or more dwelling units.

(c) "Occupied structure" shall mean any structure, vehicle, boat or place adapted for overnight accommodation of persons, or for carrying on a business therein, whether or not a person is actually present.

III. Nothing in this section shall prevent the sale, installation, or use of the following heaters in any occupied structure, except multiple family residences:

(a) The flameless catalyst type heaters; or

(b) Unvented space heaters used as antiques or curios, provided they are rendered inoperative; or

(c) The salamander type heaters, provided that they are used solely in accordance with the standards contained in chapter 4-4.7 of National Fire Protection Association, Number 31; or

(d) The salamander type heaters for temporary use in an unoccupied structure; or

(e) Unvented space heaters listed by Underwriters Laboratory, or by another nationally recognized laboratory approved by the state fire marshal. However, in no instance, shall the standards used to evaluate unvented space heaters under this subparagraph be less than those of Underwriters Laboratory Standard 647.

IV. Unvented space heaters permitted under this section shall be supplied at the time of initial retail sale with a siphon pump or any similar device which facilitates the proper refueling of the heater and printed materials explaining proper operating procedures and safety precautions.

V.(a) The state fire marshal shall adopt rules, pursuant to RSA 541-A:

(1) To assure that all space heaters which are offered for sale or

used in this state are listed by Underwriters Laboratory or meet, at the minimum, Underwriters Laboratory Standard 647 if tested by another nationally recognized laboratory approved by the state fire marshal; and

(2) To disseminate to the public a list of space heaters that have been tested and listed by Underwriters Laboratory or another nationally recognized laboratory approved by the state fire marshal; and

(3) To inform any national laboratory other than Underwriters Laboratory of what procedure shall be required to be approved by the state fire marshal; and

(4) To assure the safekeeping, the safe storage and handling, of kerosene (or any combustible liquid with characteristics similar to number 1 fuel oil).

(b) The state fire marshal shall adopt no rule to lower the standards for approval of space heaters in this state to less than those of Underwriters Laboratory.

Rep. Rounds spoke in favor of the amendment.

I would like to convey to you some of the remarks that were offered by Speaker Tucker to the Appropriations Committee on the morning of February 22nd, Quote:

"I appear here this morning to speak to you not so much on SB 14 but on the responsibility that I think rests with this committee this morning to resolve a crisis that is presently facing the State of New Hampshire. A crisis not in any way perpetrated by this committee or the New Hampshire House but a crisis that has been brought on by the irresponsible action of the State Senate in ignoring a long-standing time-honored tradition in a democratic process. The process is, when you don't agree, you meet and discuss your disagreements and attempt to reach a compromise and we use the procedure known as a Committee of Conference in the legislative process to do that.

"We do not simply throw the state on the brink of fiscal chaos by refusing to participate in the legislative process. When you disagree, you name a Committee of Conference and you attempt to iron out those differences.

"As it relates to the state's second largest source of income, the income that we receive from liquor sales, this has been ignored to the point where we are at the brink of an actual catastrophe as it relates to the state being able to conduct its business and in meeting our constitutional responsibility of attending to the welfare of the people of this state. It is a tragedy that on February 17th the Senate voted to nonconcur in SB 5 rather than naming a Committee of Conference.

"I think the people of this state are beginning to realize the impact of that irresponsible action. It is now becoming known to the people in the hotel and motel industry, the people in the restaurant industry, to the people in the ski industry and those involved in convention centers that they will not be able to maintain business as usual and in fact probably will be unable to maintain business at all if we fail to restructure and reinstitute the state Liquor Commission.

"The loss of business profits tax money, the loss of rooms and meals tax money, let alone the loss of liquor sale money, will wreak havoc with our entire state budget and so it is for this reason that I come to you this morning asking you to do the following."

Speaker Tucker asked the Committee on Appropriations to take Senate Bill 14 and provide within that Senate bill the necessary funding for the commission as the House Appropriations Committee put it forth in HB 10. He also asked that Appropriations remove the stipulation that the House had placed in SB 5 that required financial disclosure by vendors doing business with the Liquor Commission. He also asked them to remove from the House version of SB 5 the specific duties assigned to the commissioners and that it add to SB 14 the original Senate provision for the protections of employees. This the

Appropriations Committee did that day and this is the bill that you have before you. Effectively what the Speaker asked the Appropriations Committee to do and asked his designated conferees on SB 5 -- Reps. Jean White, William Russell, Roger Wood and Margaret Ramsay to do was to hold a Committee of Conference without the Senate present because they had refused to name a Committee of Conference on the bill. What the House conferees did was identify from statements made by Sen. Sanborn before the Appropriations Subcommittee those objectionable elements of SB 5 as amended by the House. That is the bill before you today. If we are going to avoid the chaos in the liquor industry, in the ski industry, then it is imperative that we pass this bill today. It is my understanding that if we do that, the Senate will meet tomorrow and consider it. I urge you to support the motion before you.

In addition, there is a Floor Amendment which will be offered if this passes. The floor amendment is printed on page 4080. This floor amendment would make two technical changes in the bill. It removes a section which deals with the pricing of wine. And it removes a section which gives the Commission the authority to change the method of purchasing of wine by off-sale licensees. Both of these are technical matters. They can be handled in the next session of the Legislature where they can have a full public hearing, where everyone who has an objection to them or supports them can have a voice.

I urge you to also vote in favor of this floor amendment. Support the motion before you when it passes, support the floor amendment.

I urge you to give this your unanimous support so that we may send a message to our friends on the other side of the wall and to the citizens of the State of New Hampshire which they certainly deserve.

Rep. French moved that Rep. Rounds remarks be printed in the House Journal.

Unanimously adopted.

Question being on the Committee amendment, Rep. French requested a roll call. Sufficiently seconded.

Amendment

Amend the bill by striking out sections

Rep. Spirou spoke to his amendment.
Amendment adopted.
Ordered to third reading.

(Speaker Pro Tem in the Chair)

SB 22-FN, to provide workmen's
compensation benefits to certain persons who
assist in search and rescue missions. Ought
to Pass.

This legislation is intended to correct
a situation with regard to volunteer
search and rescue personnel who might
lose their lives or might become injured
during their effort to effect a rescue.
Vote was unanimous. Rep. William F.
Kidder for Appropriations.

Ordered to third reading.

SB 15-FN, relative to the assessment of
the land use change tax. Ought to Pass with
Amendment.

This bill clarifies RSA 79-A, the
Current Use Law, by removing a reference
to "buildings" in RSA 79-A:7, IV (a) to
be consistent with RSA 79-A:5 which
provides that buildings are excluded
from open space land to be assessed at
current use values. The bill also
specifies that the land use change tax
shall be payable when parcels subject to
current use assessment have been reduced
in size below the minimum acreage
established by the Current Use Advisory
Board.

The Committee amendment prevents the
Current Use Advisory Board from
increasing minimum acreage requirements
above the present 10 acres. The
amendment is also intended to avoid
triggering the use change tax on land
which continues to meet any of the
various minimum acreage requirements
established by the Current Use Advisory
Board. Vote 14-0. Rep. Myrtle B.
Rogers for Environment and Agriculture.

Amendment

Amend the bill by striking out sections 2 and 3 and inserting in place thereof the following:

2 Acreage Requirements. Amend RSA 79-A:4, I (supp) as inserted by 1973, 372:1 as amended by inserting in line 4 after the word "indicate." the following (However, the board shall not have the power to establish acreage requirements in excess of 10 acres.) so that said paragraph as amended shall read as follows:

I. It shall meet at least annually, prior to February 1, to establish a schedule of criteria and values to be used for the current year. It shall have the power to establish acreage requirements and such new criteria and values as legislation and land management practice may indicate. However, the board shall not have the power to establish acreage requirements in excess of 10 acres. It shall also review all past current use land values and criteria for open space land established by past boards. It shall also be the responsibility of the advisory board to recommend such changes and improvements in the administration of this chapter as experience and public reaction may recommend.

3 Land Use Change. Amend RSA 79-A:7, IV by inserting after subparagraph (b) the following new subparagraph:

(c) By reason of size, the site no longer conforms to criteria established by the board under RSA 79-A:4, I.

4 Effective Date. This act shall take effect upon its passage.

Amendment adopted.

Ordered to third reading.

SB 7, relative to the illegal purchase of alcoholic beverages by minors and licensee and permittee violation of liquor commission rules. Ought to Pass with Amendment.

Under current law the Liquor Commission may only suspend or revoke a liquor license for violation of the rules and regulations. This bill gives the Commission the authority to impose a fine as well. Such fines will be deposited in a special fund for community based alcohol and drug abuse treatment programs.

The bill also provides that anyone who falsifies a driver's license or borrows or lends his license for the illegal purchase of alcoholic beverages shall have his license suspended for 90 days. Vote unanimous. Rep. Donna P. Sytek for Judiciary.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT
relative to the violation of liquor
commission rules by licensee and
permittees and the suspension
of a driver's license used
illegally for obtaining
alcoholic beverages.

Amend RSA 178:11 as inserted by section 2 of the bill by striking out same and inserting in place thereof the following:

178:11 Suspension or Revocation. It shall be the duty of the commission to cause frequent inspections to be made of all the premises with respect to which any license or permit shall have been issued under the provisions of this title. If any licensee or permittee violates any of the provisions of this chapter or any of the rules of the commission promulgated thereto, or fails to superintend in person or through a manager approved by the commission the business for which the license or permit was issued, or allows the premises with respect to which the license or permit was issued to be used for any unlawful, disorderly or immoral purposes, or knowingly employs in the sale or distribution of liquor or beverages any person who has been convicted of a felony, or otherwise fails to carry out in good faith the purposes hereof, for the first offense within a 3 year period the licensee or permittee shall be fined by the commission up to \$1,000 for each infraction thereof, and the license or permit of such licensee or permittee may be suspended by the commission without hearing, and may be revoked after notice and hearing. For any subsequent such offense within a 3 year period the licensee or permittee shall be fined by the commission up to \$1,000 for each infraction and the license or permit of such licensee or permittee shall be suspended by the commission without hearing, and may be revoked after notice and hearing. Any fine imposed by the commission under this section shall be deposited in a special non-lapsing account established by the state treasurer for the office of alcohol and drug abuse to be expended for the exclusive purpose of community based prevention and treatment programs and for said purposes the sums so deposited are hereby appropriated. The commission shall promulgate rules in accordance with RSA 541-A for the collection of such fines which shall be turned over to the state treasury. The commission may investigate the prices charged for liquor and beverages by the licensees and permittees. The commission may revoke or suspend the license of any licensee or the permit of any permittee if it finds after notice and hearing that the profit from the sale of liquor or beverages by such licensee or permittee is unreasonable and excessive.

Amend RSA 6:12, I(o) as inserted by section 4 of the bill by striking out same and inserting in place thereof the following:

(o) Moneys received under RSA 178:11, which shall be credited to a special fund for alcohol and drug abuse prevention and treatment programs.

Amend the bill by striking out section 1 and renumbering sections 2-5 to read as 1, 2, 3 and 4 respectively.

Amendment adopted.

Ordered to third reading.

UNANIMOUS CONSENT

Rep. Spiro addressed the House by unanimous consent.

Thank you Mr. Speaker.

I know it is not traditional for somebody to stand up and say anything on the resignation of a member but, Peter Hildreth, being a member of the Democratic Leadership, a personal friend and I think a very contributing member of the House of Representatives, leaves a big void in the ranks of the Democratic Leadership.

I just want to wish him on behalf of the Democratic Leadership, and I'm sure all those of the Majority party, that Peter in his new role in representing the State Employees Association, Godspeed and the best of luck to him. The young person who has really moved up, worked hard and really deserves everything that the world can provide him with. I wish him the very best when he goes to take the exam for his law degree next month.

Hearing no objection, the Speaker directed the Clerk to print Rep. Spirou's remarks in the Journal.

I. Each town which seeks an exemption from the provisions of RSA 149-M:18 shall provide the board, by October 1, 1982, with a draft solid waste management implementation plan showing how it will manage its solid waste in a manner consistent with the environmental requirements of the state plan. However, towns which currently participate in a cooperative solid waste management system established under RSA 53-A or 53-B or other pertinent statute shall submit an implementation plan by July 1, 1982, for purposes of advance review, comment and action by the board.

Amend the bill by striking out section 4 and inserting in place thereof the following:

4 Extension of Time Limits. Towns which operate an existing open burning solid waste facility under the provisions of 1979, 320 may continue to operate the facility until October 1, 1983, or until the effective date of the implementation of a solid waste management district plan under RSA 149-M, whichever is first.

SB 16-FN, relative to zoning changes to accommodate manufactured housing and the filling of vacancies in planning board membership. Ought to Pass with Amendment.

Amended version gives a municipality maximum flexibility and control regarding mobile homes in accordance with federal guidelines. Rep. Anthony Pepitone for Municipal and County Government.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to zoning changes to accommodate manufactured housing, the filling of vacancies in planning board members, and the granting of zoning authority to the village district of Edgelweiss.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Declaration of Purpose. The general court has previously recognized and declared that decent and sanitary housing is both a need and a right of individual citizens and families. In reaffirming the state's commitment to provide adequate housing opportunities, the general court recognizes that the costs of conventional, single family housing have risen sharply and that, if housing needs are to be met, the widest possible range of housing alternatives must be made available within each community. The general court further recognizes that it is important to provide young couples as well as elderly, retired citizens with affordable, reasonably priced, quality homes. The general court therefore declares that the complete exclusion of manufactured housing in communities is based upon outmoded perceptions as to the safety and quality of manufactured housing, and aesthetic factors. Manufactured housing, when built in conformance with national codes, is almost indistinguishable from conventional, site-built housing.

2 Manufactured and Mobile Home Housing. Amend RSA 31:118 and 31:119 (supp) as inserted by 1981, 406:2 by striking out said sections and inserting in place thereof the following:

31:118 Definitions. As used in this subdivision:

I. "Manufactured housing" means all forms of modular, unitized or

prefabricated housing. The term "manufactured housing" includes mobile homes which are brought to and assembled on a building site, placed on a foundation or structural carrier designed for that purpose, tied into all conventional and necessary utility systems, and which are intended to be used as a permanent dwelling. The term "manufactured housing" does not include housing or mobile homes which are fully constructed on the site.

II. "Mobile home" means a transportable structure in single units on a permanent chassis designed to be used as a permanent dwelling and tied into all conventional and necessary utility systems.

31:119 Exclusion of Manufactured Housing.

I. A municipality shall not exclude manufactured housing completely from the municipality by regulation, zoning ordinance or any other exercise of the police power.

II. A municipality which adopts land use control measures shall allow, in its sole discretion, mobile homes to be located in any 2 or all 3 of the following types of locations:

(a) On individual lots in some, but not necessarily all, residential areas within the municipality pursuant to zoning regulations adopted by the appropriate municipal board.

(b) In mobile home parks.

(c) In subdivisions established pursuant to zoning regulations adopted by the appropriate municipal board.

III. Mobile homes located on individual lots or located in subdivisions shall:

(a) Be considered as real estate in every respect, notwithstanding any other provisions of existing law;

(b) Comply with all lot size, frontage requirements, space limitations, and other reasonable controls that conventional single family housing in the same area must meet, or comply with all requirements for placement on individual lots or in subdivisions; and

(c) Be owned by the same person who owns the lot.

3 Mobile Home Defined. Amend RSA 259:56 (supp) as inserted by 1981, 146:1 by striking out said section and inserting in place thereof the following:

259:56 "Mobile home" means a transportable structure in single units on a permanent chassis designed to be used as a permanent dwelling and tied into all conventional and necessary utility systems.

4 Treatment as Conventional Housing. The definition of manufactured housing set forth in RSA 31:118, I as inserted by section 2 of this act shall not permit a city or town to treat manufactured housing as anything other than conventional housing, provided that such manufactured housing was treated as a conventional housing by the municipality prior to the effective date of this act. For the purposes of this section, manufactured housing does not include mobile homes.

5 Application. Cities and towns shall have until September 14, 1982, to comply

with the provisions of this act. Any city or town not in compliance with the provisions of this act after September 14, 1982, shall allow manufactured housing and mobile homes in all residential zones until the city or town is in compliance with the provisions of this act.

6 Authority to Zone Granted. The village district of Edelweiss in the town of Madison shall have the power from time to time to enact and enforce zoning regulations within the village district territorial limits and shall have all of the powers granted to towns under the provisions of RSA 31:60 to 31:89 inclusive.

7 Limitations. The powers of the town of Madison to enact and enforce zoning regulations which include the territorial limits of the village district of Edelweiss shall not be limited in the event that the village district fails to exercise the authority hereby granted.

8 Transfer of Powers. The village district of Edelweiss may, after exercising the powers herein granted, return to the town of Madison its power to enact and enforce zoning regulations in the village district of Edelweiss by action by the voters of Edelweiss at any duly warned regular or special village district meeting.

9 Filling of Vacancies by Planning Board. Amend the introductory paragraph of RSA 36:7 (supp) as amended by striking out said paragraph and inserting in place thereof the following:

36:7 Filling of Vacancies in Membership. Vacancies in the membership of a planning board occurring otherwise than through the expiration of a term shall be filled for the duration of the unexpired term, except if a vacancy occurs for an elected member or a member required to be elected pursuant to paragraph IV, then that vacancy shall be filled by the planning board until the next election, all other vacancies shall be filled by the:

10 Effective Date. This act shall take effect upon its passage.

Rep. Mann yielded to questions.

Amendment adopted.

Ordered to third reading.

SB 21-FN, relative to off-track wagering and making an appropriation therefor. Inexpedient to Legislate.

It was the opinion of the Committee that this bill was very vague in many areas.

Everything was to be determined by the experts on the Commission to manage and administrate, and yet there weren't any qualifications for the commissioners. Also, there wasn't any reasonable way to determine the returns to the State of New Hampshire. In general, the bill does not appear to be in the best interests of the citizens of the State of New Hampshire. Vote 15-2. Rep. Jean T. White for Regulated Revenues.

The ward lines for membership in that general court shall remain in effect until the dissolution of that general court in 1984. 8 Referendum. Sections 2 through 6 of this act shall not take effect unless adopted by majority vote at the state general election to be held in the city of Manchester in November 1982, as hereinafter provided. The city clerk then in office shall cause to be placed on the ballot the following question: "Do you approve the provisions of sections 2 through 6 of an act entitled in part 'An Act . . . establishing ward lines for the city of Manchester and amending its charter' passed at the 1982 special session of the general court which would redivide the city into 12 wards of substantially equal population?" Said question shall be printed in the form prescribed by RSA 656:13. If a majority of those voting on the question vote in the affirmative, sections 2 through 6 of this act shall be declared to have been adopted effective January 1, 1983. The city clerk shall, within 10 days after said election, certify that result of the vote on the above question to the secretary of state.

9 Effective Date.

CHANGE OF CONFEREES

SB 9, relative to the sale of unvented space heaters.

Rep. Newell replaced Rep. Eisengrein

COMMITTEE OF CONFERENCE REPORT ON SB 9

The committee of conference to which was referred SB 9, An Act relative to the sale of unvented space heaters having considered the same, report the same with the following recommendations:

That the House recede from its position of nonconcurrence with the Senate amendment, and concur with the Senate amendment, and

That the Senate and House adopt the following new amendment to the bill as amended by the Senate, and pass the bill as so amended:

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Space Heaters. Amend RSA 158:28 (supp) as inserted by 1971, 400:1 as amended by striking out said section and inserting in place thereof the following:

158:28 Sale or Installation of Heaters.

I. Except as otherwise provided in this section, no person shall sell or offer for sale an unvented space heater, nor shall any person install or use an unvented space heater in any occupied structure unless the prospective owner of the unvented space heater shall have obtained a permit to purchase and operate the unvented space heater from the fire official having jurisdiction over the locality in which the heater is to be used.

II. For the purposes of this section:

(a) "Unvented space heater" means any heating appliance, either wick, wickless or pot burner type, which uses oil, gas or kerosene for fuel, is either stationary or portable, and the products of combustion of which are not directly conducted to the outside of the building via a chimney connector pipe.

(b) "Multiple family residence" means a residence with 2 or more dwelling units.

(c) "Occupied structure" means any structure, vehicle, boat or place adapted for overnight accommodation of persons, or for carrying on a business therein, whether or not a person is actually present and includes structures appurtenant to occupied structures and seasonal dwellings whether vacant or occupied.

III. In no event shall an unvented space heater be installed or used in any multiple family dwelling, nor shall any person sell or offer for sale an unvented space heater for use in any multiple family

dwelling. Nothing in this section shall prevent the sale, installation, or use of the following heaters:

(a) The flameless catalyst type heaters; or

(b) Unvented space heaters used as antiques or curios, provided they are rendered inoperative; or

(c) The salamander type heaters, provided that they are used solely in accordance with the standards contained in chapter 4-4.7 of National Fire Protection Association, Number 31; or

(d) The salamander type heaters for temporary use in an unoccupied structure; or

(e) Unvented kerosene fueled space heaters approved by the state fire marshal and listed by Underwriters Laboratory or by another nationally recognized laboratory approved by the state fire marshal. However, in no instance shall the standards used to evaluate unvented space heaters under this subparagraph be less than those of Underwriters Laboratory Standard 647. To ensure the safety of the public, the state fire marshal may adopt rules, pursuant to RSA 541-A, which establish reasonable standards greater than those of Underwriters Laboratory Standard 647. In no event shall the state fire marshal be required to approve any unvented space heater which does not meet the standards established by said rules. The state fire marshal may test or cause to be tested, at the expense of the manufacturer, any type or brand of space heater proposed for sale or distribution in this state to ensure that such heater meets the standards established by the fire marshal.

IV. Unvented space heaters permitted under this section shall be supplied at the time of initial retail sale, and at the time of any subsequent transfer, with a siphon pump or any similar device which facilitates the proper refueling of the heater and with printed materials explaining proper operating procedures and safety precautions.

V.(a) The state fire marshal shall adopt rules, pursuant to RSA 541-A:

(1) To assure that all space heaters which are offered for sale or used in this state are listed by Underwriters Laboratory or meet, at the minimum, Underwriters Laboratory Standard 647 if tested by another nationally recognized laboratory approved by the state fire marshal; and

(2) To disseminate to the public a list of space heaters that have been approved by the state fire marshal and listed by Underwriters Laboratory or another nationally recognized laboratory approved by the state fire marshal; and

(3) To inform any national laboratory other than Underwriters Laboratory of what procedure shall be required to be approved by the state fire marshal; and

(4) To assure the safekeeping, the safe storage, and the handling of any fuel recommended by the manufacturer of any approved unvented space heater for use in such space heater; and

(5) To disseminate to city and town fire officials a standardized permit and permit questionnaire to be used by such officials in carrying out their responsibilities under this section.

(b) The state fire marshal shall adopt no rule to lower the standards for approval of space heaters in this state to less than those of Underwriters Laboratory Standard 647.

VI. Any person who violates any provision of paragraphs I-IV shall be guilty of a violation if a natural person, or guilty of a misdemeanor if any other person.

2 Local Regulation of Unvented Space Heaters. Amend RSA 31 by inserting after section 60 the following new section:

31:60-a Regulation of Unvented Space Heaters. For the purpose of promoting the health, safety, or general welfare of the community, the legislative body of any city or town is empowered to regulate and restrict the sale, distribution, and use of unvented space heaters intended for use in occupied dwelling units authorized under RSA 158:28. At a minimum, the governing body of each city and town shall establish a permit program whereby persons desiring to purchase and use unvented space heaters as defined in RSA 158:28 may obtain a permit to do so from the fire official in that city or town. A permit fee of \$2.00 shall be charged for purposes of defraying the local costs of administering the program. No regulatory program adopted for use in any city or town shall be based on standards which exceed the minimum standards established by the state fire marshal pursuant to the authority vested in him under RSA 158:28.

3 Effective Date. This act shall take effect upon its passage.

For the Committee.

COMMITTEE REPORTS (cont.)

HB 40-FN, exempting certain sheltered care facilities from license fees and increasing certain monthly allowances and making an appropriation therefor. Inexpedient to Legislate.

HB 40 had previously been recommended Ought To Pass by the Committee on Health and Welfare, approved by the House and referred to the Committee on Appropriations. Appropriations submitted a report of Recommended but to be Laid on the Table because of lack of funding. The House then referred the bill to the Committee on Ways and Means for possible funding. To fund this bill would have set a precedent; that of involving the Ways and Means Committee in the application of funds rather than raising funds and specific funding of this bill would have established a dedicated fund.

A motion will be made to lay HB 40 on the table so that if funds are available it can be passed. Rep. W. Douglas Scamman, Jr. for Ways and Means.

Rep. Kidder moved that the words, Ought to Pass, be substituted for the report of the Committee, Inexpedient to Legislate, spoke to his motion and yielded to Rep. Nardi who spoke in favor of the motion and yielded to questions.

Reps. Wiviott and Scamman spoke in favor of the motion.

Motion adopted.

Rep. Kidder offered an amendment.

Amendment

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

relative to sheltered care facilities and certain monthly allowances and making an appropriation therefore and relative to reducing the appropriation to the youth development center.

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Monthly Allowance Increase. Amend 1979, 473:3 by striking out said section and inserting in place thereof the following:

who receive old age assistance, aid to the permanently and totally disabled, or aid to the needy blind shall be \$500, including any federal assistance, from August 1, 1982, to June 30, 1983. The monthly allowance of \$500 does not include any disregards or personal allowances intended for the client.

Amend the bill by striking out sections 3 and 4 and inserting in place thereof the following:

3 Appropriation. The sum of \$1,070,887 is hereby appropriated to the division of welfare, department of health and welfare, for the biennium ending June 30, 1983, for the purposes of section 1 of this act. Of said sum \$543,793 shall come from the general fund and \$527,094 shall come from other (local) funds. The governor is authorized to draw his warrant for said sums out of any money in the treasury not otherwise appropriated.

4 Conditional Amendment to Operating Budget. If HB 10-FN of the 1982 special session, "An Act relative to amending the operating budget" becomes law, section 5 of this act shall take effect. If section 5 of this act takes effect, the legislative budget assistant is hereby authorized to adjust all totals as required by the passage of section 5 of this act. If HB 10-FN does not become law, section 5 of this act shall not take effect.

5 Reduction of Appropriation to Youth Development Center. Amend 1981, 568:1.02, 18,04 by striking out lines 8-16 and inserting in place thereof the following:

Other funds	61,000	105,000

6 Effective Date.

I. Sections 1, 2 and 3 of this act shall take effect July 1, 1982.

II. Sections 4 and 5 of this act shall take effect July 1, 1982, at 12:01 a.m.

Amendment adopted.

Ordered to third reading.

HB 44, allowing cities and towns to impose additional taxes. Inexpedient to Legislate.

The majority felt this concept was not something that could be fully developed in a special session and that it posed more questions than answers in its present form. Vote. 9-5. Rep. Roger C. Heath for Ways and Means.

Rep. Chambers moved that the words, Ought to Pass, be substituted for the report of the Committee, Inexpedient to Legislate, spoke to her motion and withdrew her motion. Resolution adopted.

GOVERNOR'S VETO MESSAGE ON HB 15

To the Honorable Members of the General Court

Pursuant to Article 44, Part 2 of the New Hampshire Constitution, I return House Bill 15 with my objections thereto noted.

During the 1981 Regular Session the General Court enacted legislation over my objection which eliminated De Novo review of Department of Employment Security Appeal Tribunal decisions by the Superior Court. Created in its place was an Appellate Division which "shall be part of the department of employment security for organizational purposes, but shall operate independently of that department." (Chapter 576, Session Laws of 1981) The Appellate Division is comprised of 5 members. Its scope of review is extremely limited because it is an appellate body. They cannot receive new evidence. And, they cannot substitute their judgement as to the weight of the evidence on questions of fact, or as to the prudence or desirability of a decision. Their review authority is further limited by RSA 282-A:65 which specifies in part:

"The appellate division shall reverse or modify the decision or reward the case for further proceedings only if the substantial rights of the appellant had been prejudiced because the findings, inferences, conclusions, or the decision is:

- I. In violation of constitutional or statutory provisions; or
- II. In excess of the statutory authority of the department of employment security; or
- III. Affected by reversible error of law; or
- IV. Affected by fraud; or
- V. Affected by the absence of newly discovered evidence,..."

In essence, the Division's review authority is limited to matters of law. That is why last year I nominated and the

Executive Council confirmed five attorneys to sit as members of this board. I believe that lawyers, not lay-people, should pass judgment on matters of law. Not because they are more intelligent or have greater insight. Rather, because it is lawyers who have undergone the particular, specialized, technical training which enables them to review matters of law such as those listed above.

Further, this new law has been in effect for only four months. Interim rules were adopted by the Appellate Division in November and permanent rules were adopted earlier this month. The hearing process has been initiated and is ongoing according to the structure enacted by the legislature last year. There is no evidence to suggest that this process is not working and thus, there is no reason to change that process by amending the statute at this time.

For these reasons, I do not believe that the provisions of House Bill 15 are in the best interests of the state and I respectfully ask you to uphold the action I have taken in returning the legislation to you with my objections.

Sincerely,
Hugh J. Gallen, Governor

Question being notwithstanding the Governor's veto, shall HB 15 pass.

GOVERNORS VETO MESSAGE ON HB 37

To the Honorable Members of the General Court

Pursuant to Part 2, Article 44 of the New Hampshire Constitution, I return HB 37 with my objections thereto noted.

Section 2 of this Act is already contained in Chapter 29, Session Laws of 1982, which I signed into law earlier last month. Section 4 of this law would drastically change the manner in which state representatives are elected from the City of Keene. That plan assigns only one representative for the approximately 4300 residents of each of five wards and further requires that four representatives are to be elected at-large from all five wards combined from a total population of over 21,000.

Our state's Founding Fathers, as well as several Constitutional Conventions and Legislatures which have considered the issue of representative district apportionment since the inception of our republican form of government have repeatedly endorsed the fundamental concept of small district representation. They did this in large part, I believe, because of their firm commitment to the constitutional requirement that no person's vote shall be entitled to greater weight than another's.

The reapportionment plan which you passed earlier this year and which I signed into law contained for the first time in our state's history a series of flotalial districts. The concept of flotalial districts in and of itself is not one which I believe was violative of the Constitution, nor does it preclude a fair apportionment plan from being developed. However, I believe the plan contained in Section 4 of HB 37 uses the flotalial district to the detriment of the small district representative concept and interferes with the fundamental one man one vote principle.

Additionally, I have been requested by the overwhelming majority of state representatives from the City of Keene to veto this legislation. I believe that the state Legislature should not overrule the wishes of those at the local level on matters which pertain only to the manner and form in which their individual representatives shall be elected.

Further, because Section 4 of the bill becomes effective only on January 1, 1984, and because the apportionment plan for all five wards has previously been signed into law and will be in effect for the upcoming election, there is no urgent need to enact a plan to amend this plan until sometime during the next regular session.

I hope you will concur with my objections and sustain this veto.

Sincerely,
Hugh J. Gallen, Governor

VETO MESSAGE ON HB 10

To the Honorable Members of the General Court

Pursuant to Part II, Article 44 of the New Hampshire Constitution, I return herewith House Bill 10, with my objections thereto noted.

This budget is fundamentally and fatally flawed. To sign it would lend my endorsement to planned financial chaos, and give my support to an ill-advised program

certain to result in successful litigation against the state. Signing this bill would mean renouncing legitimate and fundamental state obligations; it would guarantee a deficit at the end of this biennium.

But standing idly by and allowing this bill to become law without my signature would be worse. That is the course which many have urged upon me in the past five days. That is the course of quick political expediency. And that is the course which would abandon the special responsibility of state leadership, with which I, and I alone in New Hampshire, have been entrusted.

A budget is more than a mere compilation of numbers. More than any other document, more than any other law, it defines the philosophy of government and it describes the role and responsibility of government. A budget gives state government its voice. It speaks to the financial community; telling investors of New Hampshire's willingness and capacity to meet its obligations. It speaks to the taxpayers; telling them of their state's ability to make difficult decisions involving the allocation of their hard-earned dollars. And it speaks to those who are a part of state government and those who are served by state government; describing for them the state's level of compassion, its sense of justice and its concern for equity.

My commitment to the people of New Hampshire is simple: it is to talk straight to them about the terribly difficult and complex issues which confront this state government, and its counterparts all across America. I would not be true to that commitment if I were to allow this budget, which gives state government a false and misguided voice, to pass.

This budget says to the financial community that New Hampshire is incapable of calculating its debt service cost, and that the commitment to pay this most fundamental of state bills simply can't be made at this time.

This budget says to the taxpayers of New Hampshire that we would rather commit ourselves to deficit spending, by balancing a budget on revenue which we know does not exist, than make hard decisions to seek out alternative funding possibilities or reduce other programs.

By themselves, these two facts should be sufficient to cause any Governor with a concern for the financial well-being of New Hampshire to exercise the power of the veto. But the fundamental defects of House Bill 10 go far beyond these two issues.

The bill utterly ignores known obligations. It fails to appropriate sufficient funds to cover indigent defense bills which are already on hand. Does someone believe that if we bury our heads in the sand long enough, this problem will go away?

Despite repeated warnings from the Warden, it funds the State Prison at a level which makes it impossible to remain in compliance with the federal court order under which that institution must operate.

It borrows more than \$1.7 million from the mayors and the selectmen and the property taxpayers of our state by once

again reducing the Business Profits Tax payments to cities and towns.

It creates the certainty of further financial problems at the State Liquor Commission.

It grants broad powers to the Executive Branch to implement the Management Review, but then fails to provide the essential financial and structural resources to help that implementation succeed.

It ignores known increases in the cost of the state's health insurance policy.

And of course, it abandons any pretense of commitment to the collective bargaining process, established by the Legislature less than a decade ago.

By all of these acts, House Bill 10 says to those who rely on government, and to those who are government, that in New Hampshire the definitions of compassion and justice and equity begin and end with the dollar sign. I believe that managing the costs of all state programs is critical; but it is past time for the legislative leadership to understand that one cannot manage a problem by pretending that it doesn't exist.

Six months ago I stood before a Joint Convention of the Legislature and outlined the short and long-term financial issues confronting New Hampshire.

Four and one-half months ago, I presented a comprehensive program to eliminate the short-term problem. Many of the proposals in that package were readily acceptable. Others were painful or politically unpopular, but they were necessary to meet legitimate state obligations.

Now after a special session that has gone on far too long, I am presented with a budget which fails utterly --- for by leaving the short-term problem unresolved, and by committing the state to deficit spending, it ensures that we will be in no position to deal with the far more profound long-term issues which lie ahead.

House Bill 10 has been described as the best possible budget under the circumstances. To be sure, there are many vital priorities which are funded, and many good ideas which are adopted by this bill. I am confident that responsible legislators will again recognize their obligations in these areas.

But, the special responsibilities which rest solely on a Governor dictate, that I cannot judge a budget by looking only at those issues which have been favorably resolved. The simple truth is that House Bill 10 is unbalanced and incomplete. I believe that state government does have the capacity to do better. I am confident that upon reflection, the House and Senate will concur in that judgment.

Sincerely,
Hugh J. Gallen, Governor

Question being notwithstanding the Governor's veto, shall HB 10 pass.

Rep. Spirou spoke against the bill.

Rep. French spoke in favor of the bill.

A roll call was taken as required by the Constitution.

(a) General or specific licensing on an annual basis of byproduct, source, special nuclear materials or devices, or equipment utilizing such materials for any source of ionizing radiation, including a graduated fee schedule;

(b) The amendment, suspension or revocation of such licenses;

(c) The registration or licensing of other sources of ionizing radiation;

(d) The exemption of certain sources of ionizing radiation or kinds of uses or users from licensing or registration requirements required by this section. The agency shall maintain a schedule listing any exempted uses, users or sources of ionizing radiation;

state in which depositors, shareholders or stockholders of any such corporation reside, of the taxes so assessed upon any such corporations with respect to the dividends, shares and stock of residents of such towns. Such distribution shall be made among the respective towns, in amounts proportional, as closely as reasonably possible, to the amount of all savings and special deposits, shares and capital stock belonging to the residents of each such town, as determined by the commissioner of revenue administration. The amount appropriated for this purpose shall be distributed to the respective towns by the state treasurer. The annual appropriation for distribution under this section shall be based upon the agreed upon legislative revenue projections. A portion of such taxes shall be retained in the state treasury and applied against the cost of examination and supervision of the bank commissioner as provided in RSA 383:9, and shall be set at the fiscal year 1981 level; and an amount shall be retained and expended for the purpose of RSA 198:8 to 15, and shall be set at the fiscal year 1981 level.

After deducting the costs of the administration of the chapter from the total income and on or before October 15 of each year, the treasurer shall distribute the appropriated amount for this purpose to the towns and cities according to an equalized formula calculated by taking for each city and town the amount of local property taxes assessed, including current distribution of state revenues to local government, exclusive of education funds; dividing that sum by the local equalized valuation as determined by the commissioner of revenue administration; and multiplying the result by the local population to produce an equalizing factor for each city and town. Such equalizing factors shall be added together to produce a total state sum. Each local equalizing factor shall be divided by the total state sum to produce for each city and town a normalized factor. Each such normalized factor shall be multiplied by the total amount of revenue to be shared by the cities and towns to produce the annual share for each city or town. The annual appropriation for distribution shall be based upon not less than $\frac{3}{14}$ of the total legislative projected revenue less the projected costs of administration under this section. Provided, however, that no city or town shall receive under the provisions of this section an amount less than 75 percent of its 1976 distribution under this section. I. Committee Established. There is hereby established a special committee on revenue and fund balance certification which shall consist of 3 members of the senate appointed by the president of the senate and 3 members of the house of representatives appointed by the speaker of the house. Said committee shall choose one of its members as chairman. The state comptroller and the legislative budget assistant shall jointly file with said committee on or before July 14, 1982, a financial statement for the general fund, the highway fund and the fish and game fund showing the revenues to date and the estimated revenues for the balance of the fiscal biennium and the availability of other funds in each such fund which are available to be used to fund programs or priorities as provided herein. In addition, such statement shall identify the funds available in each fund which were or will be realized from the implementation of the recommendations of the Governor's Management Review, Inc. In the event that the comptroller and the legislative budget assistant are unable to agree as to the revenues received, the projected revenues for the balance of the fiscal biennium, the availability of other funds or the amount of funds in each fund identifiable as being realized from the implementation of the recommendations of the Governor's Management Review, Inc., each shall file a separate statement.

II. General Fund Priorities. Based upon the information supplied by the

comptroller and the legislative budget assistant, the committee shall certify whether there will be sufficient revenues or other general fund funds available to implement the following programs and priorities, provided that said programs and priorities shall be implemented in the following order, and provided further that if said committee certifies that there will be sufficient revenues or other general funds available, said programs and priorities shall be implemented:

(a) Program and Priority Number 1. Salary Increases. In the event that the committee certifies that there are sufficient funds available, the following actions shall be implemented:

(1) Salary Increases. Commencing on July 15, 1982, or on such date as determined under subparagraph (6) of this section, the salary of every classified, unclassified, judicial and legislative state employee shall be increased by an amount to be determined by the following procedure:

(A) The executive, through the state negotiating committee, and the state employee organization certified as the representative thereof shall reopen negotiations to consider an agreement for fiscal year 1983. Said renegotiation shall be limited to the amount of the fiscal year 1983 salary increase. If any agreement which is reached as a result of such renegotiation, including a like increase for unclassified, judicial and legislative employees, will be funded within the limits of the available balances determined by paragraph I, then said agreement shall be funded by the available balances and is hereby specifically approved by the legislature. If the cost of said agreement exceeds the limits of the available balances, the state negotiating committee shall present such agreement to the general court for subsequent legislative action.

(B) The director of legislative services is hereby directed to change the salary schedules and tables and introductory paragraphs in RSA 94:1-a, RSA 99:1-a and RSA 491-A:1 to reflect the increase provided for herein, and said schedules and tables and paragraphs are hereby so amended commencing on the appropriate date.

(2) Appropriation for Unclassified Employees, Legislative Employees, and Judicial Salary Increases. In addition to any other sums previously appropriated, there are hereby appropriated for the fiscal year ending June 30, 1983, for the salary increases for the unclassified state employees and judicial and legislative salary increases as provided in this act the following sums: \$560,849 from the general funds of the state, \$59,125 from the highway fund, \$2,884 from the fish and game fund, \$25,300 from federal funds, and \$48,550 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(3) Appropriations for Retirement and OASI. In addition to any other sums previously appropriated, there are hereby appropriated for the fiscal year ending June 30, 1983, for retirement and OASI for unclassified state employees,

legislative employees and judicial officers the following sums: \$16,808 from the general funds of the state, \$1,773 from the highway fund, \$86 from the fish and game fund, \$742 from federal funds and \$1,456 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(4) Appropriation for Classified State Employees' Salary Increase. In addition to any other sums previously appropriated there are hereby appropriated for the fiscal year ending June 30, 1983, for the salary increases for classified state employees the following sums: \$8,162,779 from the general funds of the state, \$3,053,619 from the highway fund, \$214,965 from the fish and game fund, \$2,379,645 from federal funds and \$596,455 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(5) Appropriation for Retirement and OASI. In addition to any other sums appropriated for retirement and OASI for the salary increases for classified employees provided for herein for the fiscal year ending June 30, 1983, the following sums are appropriated: \$756,763 from the general funds of the state, \$285,228 from the highway fund, \$20,180 from the fish and game fund, \$216,989 from federal funds and \$55,196 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(6) Comptroller to Certify. The sums authorized by this section shall be appropriated only if, on July 14, 1982, the comptroller, after consultation with and the approval of the fiscal committee of the general court, shall certify to the governor and council that the projected surplus of all the applicable funds for the end of the biennium are, in and of themselves individually, sufficient to fund said appropriations. The comptroller may, after consultation with and the approval of the fiscal committee, set an effective date other than July 14, 1982, for the salary increases authorized by this section, such that the available surplus shall be sufficient to fund that proportion of the appropriation for the remainder of the fiscal year following such effective date. In making such certification, the comptroller shall identify, by fund, the reduced expenditures or increased revenues to be realized within this biennium. Subject to the foregoing provisions of this paragraph, the comptroller is hereby authorized and directed to allocate the sums appropriated by this act for salary increases to the various program appropriation units on the same ratio that the appropriation in each PAU for personnel services bears to the total appropriation for personnel services.

(7) University System. The trustees of the university system of New Hampshire shall be authorized funds to provide the same salary increase or increases as are provided to classified state employees if, before July 14, 1982, the chancellor shall provide evidence to the comptroller of sufficiently reduced expenditures or increased revenues to be

realized within the university system within the biennium to fund an appropriation for that purpose; and further, the appropriation made in this paragraph shall be appropriated only if, on July 14, 1982, the comptroller, after consultation with and approval of the fiscal committee of the general court, shall certify to the governor and council that, in addition to the projected surplus required by subparagraph (6), there is a sufficient projected surplus in the general fund to fund any difference between the amounts realized by the efficiencies within the university system and the total required. In making such certification, the comptroller shall identify the reduced expenditures or increased revenues to be realized within the university system within the biennium by July 14, 1982. Subject to these provisions, the comptroller is authorized to allocate the sum required to fund the pay increase authorized by this paragraph to the trustees of the university system of New Hampshire, and that sum is hereby appropriated. The governor is authorized to draw his warrant for said sum out of any money in the treasury not otherwise appropriated.

(b) Program and Priority Number 2. Minimum BPT. In the event that the committee certifies that there are \$6,000,000 in general funds available, RSA 77-A:2-a relative to the minimum business profits tax shall be and hereby is repealed effective July 1, 1982.

III. General Provision. Except as otherwise provided, no program and priority provided for in paragraph II of this section shall be implemented unless the program and priority with the next lower number has been fully implemented. Except as otherwise provided, no sum shall be expended or encumbered for any program and priority unless the committee finds and certifies that there is sufficient revenue or available funds to fully implement such program and priority. All sums certified by the committee as available to implement such programs and priorities are hereby appropriated and the governor is authorized to draw his warrants for said sums which shall be a charge against the appropriate fund.

214 Reporting of District and Municipal Court Receivables. Notwithstanding any other provisions of statutory or session law, all municipal and district courts are hereby directed to provide a complete accounting of all amounts due to the state but uncollected which constitute accounts receivable for court fines to the department of safety within 10 calendar days of the

closing of the state's 1983 fiscal year. These accounts receivable shall be reported by the department of safety to the director of the division of accounts no later than 4:00 p.m. on July 14, 1983. Beginning July 1, 1983, the department of safety is hereby directed to maintain complete and accurate records for reporting of the accounts receivable due to the state for court fines in each succeeding year.

215 Temporary, Seasonal, Part-Time Benefits Suspended. Notwithstanding other provisions of law and personnel department regulations, no benefits other than the employer share of FICA, and applicable unemployment compensation and workman's compensation provisions shall be granted to any temporary, seasonal, or part-time state employee as defined in RSA 98-A effective July 1, 1982. The comptroller shall, no later than June 30, 1982, after consultation with appropriate department heads, determine the savings in each agency that will result from this action and these amounts shall lapse to the appropriate fund from each affected agency.

216 Tramway Fund. Notwithstanding the provisions of RSA 227:5, the \$200,000 emergency expenditure surplus in the Cannon Mountain Aerial Tramway Fund shall lapse to the general fund on June 30, 1982.

VETO MESSAGE ON HB 32

To the Honorable Members of the General Court

Pursuant to Part II, Article 44 of the New Hampshire Constitution, I return House Bill 32, with my objections thereto noted.

Section I of House Bill 32 provides for the establishment of new ward lines within the City of Nashua. As you know, the fundamental reason for redrawing ward lines, as well as redrawing legislative districts every ten years, is to insure that every citizen of this state will be fully and fairly represented, and, that no one person's vote will be entitled to greater weight than another's. That requirement is mandated by both our own state constitution, as well as the federal constitution.

During the course of a ten year period, significant population growth can, and usually does occur within the boundaries of an individual municipality. Significant changes in population throughout the state also occur. That is why it is absolutely essential that ward lines and legislative districts be drawn in a manner which, at the very outset, provides for the least possible deviation between comparable districts.

I believe that the ward lines as proposed in HB 32 fail this test, and fail this test substantially. The overall deviation between the nine wards as proposed is over 18%. That level of deviation would be unacceptable to me on a statewide level where it is extremely difficult to draw comparable legislative districts due to the multiplicity of sub-state jurisdictions involved. It is even more unacceptable to me when all nine districts proposed to be redrawn are contained within a single political entity, therefore, there is no apparent reason to have anything greater than a de minimis deviation between wards.

Additionally, the matter of reapportionment of state legislative districts -- both House and Senate -- is now properly before the Courts. The Federal District Court is conducting a hearing on the House passed reapportionment plan on next Thursday, May 27, 1982, and the State Supreme Court heard oral argument on the existing Senate reapportionment law on Friday, May 21, 1982. I believe it would be inappropriate for me to take affirmative action on individual city redistricting bills until the courts have ruled on the matters before them which relate to the apportionment of legislative districts for the entire State of New Hampshire.

For these reasons, I am returning House Bill 32 to you. I hope you will concur with my objections and sustain this veto.

Sincerely,
Hugh J. Gallen, Governor

Rep. Spirou moved that consideration of the Governor's veto message be laid upon the table.

Adopted.

VETO MESSAGE ON HB 39

To the Honorable Members of the General Court

Pursuant to Part II, Article 44 of the New Hampshire Constitution, I return House Bill 39, with my objections thereto noted.

This legislation has two primary components. First, provisions which authorize the City of Concord to conduct a special election to ratify newly drawn ward lines. And second, provisions which specify that of the 13 representatives allocated by the General Court to Concord's eight wards, five will be required to run at-large. It is the latter of these provisions which makes the bill unacceptable to me.

Our state's Founding Fathers, as well as several Constitutional Conventions and Legislatures, which have considered the issue of representative district apportionment since the inception of our republican form of government, have repeatedly endorsed the fundamental concept of small district representation. They did this in large part, I believe, because of their firm commitment to the constitutional requirement that no person's vote shall be entitled to greater weight than another's.

I believe that the plan for allocating representatives contained in House Bill 39 seriously interferes with the small district representative concept that I support, and has the potential for interfering with the fundamental one man, one vote principle. Further, I have been requested by representatives of both political parties within the City of Concord to veto this legislation. Their concerns and my concerns with this bill are not the proposed ward lines or the special election to ratify those proposed ward lines. But rather, it is the form in which the representatives from the City of Concord are to be elected over the next ten years.

Additionally, the matter of reapportionment of the state legislative districts -- both House and Senate -- is now properly before the Courts. The Federal District Court is conducting a hearing on the House passed reapportionment plan on next Thursday, May 27, 1982, and the New Hampshire Supreme Court heard oral argument on the existing Senate reapportionment law on Friday, May 21, 1982. I believe it would be inappropriate for me to take affirmative action on individual city redistricting bills until the courts have ruled on the matters before them which relate to the apportionment of legislative districts for the entire State of New Hampshire.

If legislation authorizing a special election for the City of Concord to ratify new ward lines had reached me either individually, or in a different form, I would have been disposed to sign this bill into law. In its present form however, I cannot allow it to become law, and I hope that you will concur with my objections and sustain this veto.

Sincerely,
Hugh J. Gallen, Governor

Rep. Baybutt moved that consideration of the Governor's veto message be laid upon the table.

Adopted.

VETO MESSAGE ON HB 43

To the Honorable Members of the General Court

Pursuant to Part II, Article 44 of the New Hampshire Constitution, I am returning House Bill 43, with my objections thereto noted.

Section 1 of this act contains a plan for reallocating state representatives within Strafford County. Specifically of concern to me is the plan contained therein for the allocation of representatives within the City of Dover. That plan assigns one representative to each of the six wards and further requires that three representatives are to be elected at-large from all six wards combined from a total population of over 22,000.

Our state's Founding Fathers, as well as several Constitutional Conventions and Legislatures, which have considered the issue of representative district apportionment since the inception of our republican form of government, have repeatedly endorsed the fundamental concept of small district representation. They did this in large part, I believe, because of their firm commitment to the constitutional requirement that no person's vote shall be entitled to greater weight than another's.

I believe that the plan for allocating representatives contained in HB 43 seriously interferes with the small district representative concept that I support, and has the potential for interfering with the fundamental one man, one vote principle.

With respect to the other portions of HB 43 which contain a plan for the allocation of representatives within the City of Manchester as well as a proposal to redraw the ward lines within Manchester, I believe that a better, more equitable and judicious plan can be developed which will have the support of a broad cross section of the Manchester community.

Additionally, the matter of reapportionment of state representative districts is now before the Federal District Court. A hearing on the House passed reapportionment plan is scheduled for today, May 27, 1982. I believe it would be inappropriate for me to take affirmative action on individual city redistricting bills until the Court has ruled on the matters before them which relate to the reapportionment of legislative districts for the entire State of New Hampshire.

For these reasons, I am returning HB 43 to you. I hope you will concur with my objections and sustain this veto.

Sincerely,
Hugh J. Gallen, Governor

Rep. Krasker moved that consideration of the Governor's veto message be laid upon the table.

Adopted.

211 Salary Increases. Amend section 167 of this act by striking out said section and inserting in place thereof the following:

167 Implementation of Programs and Priorities.

I. Committee Established. There is hereby established a special committee on revenue and fund balance certification which shall consist of 3 members of the senate appointed by the president of the senate and 3 members of the house of representatives appointed by the speaker of the house. Said committee shall choose one of its members as chairman. The state comptroller and the legislative budget assistant shall jointly file with said committee on December 15, 1982, a financial statement for the general fund, the highway fund and the fish and game fund showing the revenues to date and the estimated revenues for the balance of the fiscal biennium and the availability of other funds in each such fund which are available to be used to fund programs or priorities as provided herein. In addition,

such statement shall identify the funds available in each fund which were or will be realized from the implementation of the recommendations of the Governor's Management Review, Inc. In the event that the comptroller and the legislative budget assistant are unable to agree as to the revenues received, the projected revenues for the balance of the fiscal biennium, the availability of other funds or the amount of funds in each fund identifiable as being realized from the implementation of the recommendations of the Governor's Management Review, Inc., each shall file a separate statement.

II. General Fund Priorities. Based upon the information supplied by the comptroller and the legislative budget assistant, the committee shall certify whether there will be sufficient revenues or other general fund funds available to implement the following programs and priorities, provided that said programs and priorities shall be implemented in the following order, and provided further that if said committee certifies that there will be sufficient revenues or other general funds available, said programs and priorities shall be implemented:

(a) Program and Priority Number

1. Salary Increases. In the event that the committee certifies that there are sufficient funds available, the following actions shall be implemented:

(1) Salary Increases.

Commencing on December 15, 1982, or on such date as determined under subparagraph (6) of this section, the salary of every classified, unclassified, judicial and legislative state employee shall be increased by an amount to be determined by the following procedure:

(A) The executive, through the state negotiating committee, and the state employee organization certified as the representative thereof shall reopen negotiations to consider an agreement for fiscal year 1983. Said renegotiation shall be limited to the amount of the fiscal year 1983 salary increase. If any agreement which is reached as a result of such renegotiation, including a like increase for unclassified, judicial and legislative employees, will be funded within the limits of the available balances determined by paragraph 1, then said agreement shall be funded by the available balances and is hereby specifically approved by the legislature. If the cost of said agreement exceeds the limits of the available balances, the state negotiating committee shall present such agreement to the general court for subsequent legislative action.

(B) The director of legislative services is hereby directed to change the salary schedules and tables and introductory paragraphs in RSA 941:1-a, RSA 99:1-a and RSA 491-A:1 to reflect the increase provided for herein, and said schedules and tables and paragraphs are hereby so amended commencing on the appropriate date.

(2) Appropriation for Unclassified Employees, Legislative Employees, and Judicial Salary Increases. In addition to any other sums previously appropriated, there are hereby appropriated for the fiscal year ending June 30, 1983, for the salary increases for the unclassified state employees and judicial and legislative salary increases as provided in this act the following sums: \$560,849 from the general funds of the state, \$59,125 from the highway fund, \$2,884 from the fish and game fund, \$25,300 from federal funds, and \$48,550 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(3) Appropriations for Retirement and OASI. In addition to any other sums previously appropriated, there are hereby appropriated for the fiscal year ending June 30, 1983, for retirement and OASI for unclassified state employees, legislative employees and judicial officers the following sums: \$16,808 from the general funds of the state, \$1,773 from the highway fund, \$86 from the fish and game fund, \$742 from federal funds and \$1,456 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(4) Appropriation for Classified State Employees' Salary Increase. In addition to any other sums

previously appropriated there are hereby appropriated for the fiscal year ending June 30, 1983, for the salary increases for classified state employees the following sums: \$8,162,779 from the general funds of the state, \$3,053,619 from the highway fund, \$214,965 from the fish and game fund, \$2,379,645 from federal funds and \$596,455 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(5) Appropriation for Retirement and OASI. In addition to any other sums appropriated for retirement and OASI for the salary increases for classified employees provided for herein for the fiscal year ending June 30, 1983, the following sums are appropriated: \$756,763 from the general funds of the state, \$285,228 from the highway fund, \$20,180 from the fish and game fund, \$216,989 from federal funds and \$55,196 from self-sustaining funds. The governor is authorized to draw his warrants for the sums hereby appropriated.

(6) Comptroller to Certify. The sums authorized by this section shall be appropriated only if, on December 15, 1982, the comptroller, after consultation with and the approval of the fiscal committee of the general court, shall certify to the governor and council that the projected surplus of all the applicable funds for the end of the biennium are, in and of themselves individually, sufficient to fund said appropriations. The comptroller may, after consultation with and the approval of the fiscal committee, set an effective date other than December 15, 1982, for the salary increases authorized by this section, such that the available surplus shall be sufficient to fund that proportion of the appropriation for the remainder of the fiscal year following such effective date. In making such certification, the comptroller shall identify, by fund, the reduced expenditures or increased revenues to be realized within this biennium. Subject to the foregoing provisions of this paragraph, the comptroller is hereby authorized and directed to allocate the sums appropriated by this act for salary increases to the various program appropriation units on the same ratio that the appropriation in each PAU for personnel services bears to the total appropriation for personnel services.

(7) University System. The trustees of the university system of New Hampshire shall be authorized funds to provide the same salary increase or increases as are provided to classified state employees if, on December 15, 1982, the chancellor shall provide evidence to the comptroller of sufficiently reduced expenditures or increased revenues to be realized within the university system within the biennium to fund an appropriation for that purpose; and further, the appropriation made in this paragraph shall be appropriated only if, on December 15, 1982, the comptroller, after consultation with and approval of the fiscal committee of the general court, shall certify to the governor and council that, in addition to the projected surplus required by subparagraph (6), there is a sufficient projected surplus

in the general fund to fund any difference between the amounts realized by the efficiencies within the university system and the total required. In making such certification, the comptroller shall identify the reduced expenditures or increased revenues to be realized within the university system within the biennium by December 15, 1982. Subject to these provisions, the comptroller is authorized to allocate the sum required to fund the pay increase authorized by this paragraph to the trustees of the university system of New Hampshire, and that sum is hereby appropriated. The governor is authorized to draw his warrant for said sum out of any money in the treasury not otherwise appropriated.

III. General Provision. VETO MESSAGE ON HB 45

To the Honorable Members of the General Court

Pursuant to Part 2, Article 44 of the New Hampshire Constitution, I return House Bill 45 with my objections thereto noted.

Sections 1 through 9 of this legislation contain provisions which would establish new ward lines for the City of Portsmouth and provide for the manner in which representatives to the General Court and State Party Convention Delegates are to be allocated. These sections of the bill have the strong support of the Portsmouth delegation, and I would be disposed towards

signing the bill if it were comprised only of these sections.

However, as members of the General Court are well aware, the balance of House Bill 45 contains provisions which are virtually identical to legislation I have previously vetoed relative to the cities of Manchester, Dover, Concord, Nashua, and Keene. The reasons I cited in my veto messages on legislation governing each of those five cities are no less compelling today than they were on the days during which they were vetoed.

Further, because the apportionment plan for all cities has been signed into law and will be in effect for the upcoming election, there is no urgent need to enact a plan to amend this plan until sometime during the next regular session.

I hope you will concur with objections and sustain this veto.

Sincerely,
Hugh J. Gallen, Governor

Question being notwithstanding the Governor's veto, shall HB 45 pass.

Reps. Chase and Normand Packard spoke in favor of the bill and yielded to questions.

Reps. Joseph MacDonald, Krasker, Cotton, Spirou and McGlynn spoke against the bill.

Reps. Carragher, Sytek, Baybutt and Randall spoke in favor of the bill.

Reps. Barber, Nardi and Kaklamanos spoke against the bill and yielded to questions.

UNANIMOUS CONSENT

Rep. Spirou addressed the House by unanimous consent.

Thank you Mr. Speaker.

As the leader of the Minority party, I do wish to extend my congratulations and best wishes to those who have served with us. I remembered yesterday that it was 12 years ago that I started my political career in this legislature and 12 years is a long time. I know many of you have served, many have served only one term and are leaving. Go with my best wishes and please stay in public life.

It's been a tough session for all of us, many of you are leaving disgruntled, many of you are leaving disappointed at the leadership, others are disappointed at government, others are disappointed at circumstances that made us bitter at times in this legislature. But I think all of us collectively can be proud that we have served in the best tradition of the New Hampshire political system.

I'm proud of everyone that I have served with, Democrats or Republicans. We've had our differences, but I don't believe that there is a person in this chamber that can say that we've ever personalized an issue; that we've not been able to have a drink afterwards, that we have not been able to discuss the issues at hand or the position that we have taken.

I hope that for whatever reason any of you are not coming back that you do not leave government altogether. Government needs people and particularly people who give of themselves as we have to in the New Hampshire Legislature.

And Mr. Speaker, before I finish I want to thank the Majority leadership for the cooperation that they have given us, I want to thank the Democratic leadership for the support they have given me, and to the other Democrats and Republicans in the House for the friendship and support that they have extended to us, the Minority party, in this past session of the legislature.

And, above all, I want both Democrats and Republicans to recognize the service and the job that the presiding officer has done in the last session of the legislature, a most difficult one. An honorable man and a person who has tried under difficult circumstances to provide us with all of the things that we need as minority party or majority party, as individuals, Republicans, Democrats, mad, angry: The Speaker of the House. Please join me in giving him a big hand for a job well done.
